Quanta Services Selected by SemGroup for the Maurepas Pipelines Project

Quanta Providing Complete Engineering, Procurement & Construction Solutions

HOUSTON, March 27, 2015 /PRNewswire/ -- Quanta Services, Inc. (NYSE: PWR) announced today that Maurepas Pipeline, LLC, a subsidiary of SemGroup Corporation (SemGroup), selected Quanta Services for the Maurepas Pipelines Project. Quanta subsidiaries, including Price Gregory International, QPS Engineering and Quanta Capital Solutions, assisted with the development of the project for SemGroup and will provide engineering, procurement and construction services. Engineering, permitting, right of way acquisition and materials procurement has commenced. Construction is expected to begin in the third quarter of 2015 and completion is expected in the third quarter of 2016.

The Maurepas Pipelines Project has three separate pipelines measuring approximately 100 miles in aggregate, consisting of 24-inch, 12-inch and 6-inch diameter pipe, and three new pumping stations. The project spans the Ascension, St. Charles, St. James and St. John the Baptist parishes in Louisiana. Once completed, the pipeline system should enable local refineries to integrate and optimize their operations and should provide the refineries with pipeline access to domestically produced crude oil.

About Quanta Services
Quanta Services is a leading specialized contracting services company, delivering infrastructure solutions for the electric power and oil and gas industries. Quanta's comprehensive services include designing, installing, repairing and maintaining energy infrastructure. Additionally, in certain markets Quanta licenses fiber optic telecommunications infrastructure, offers lit network management services and provides related design, procurement, construction and maintenance services. With operations throughout North America and in certain international markets, Quanta has the manpower, resources and expertise to safely complete projects that are local, regional, national or international in scope. For more information, visit www.quantaservices.com.

Forward-Looking Statements
This press release (and any oral statements regarding the subject matter of this press release) contains forward-looking statements intended to qualify for the "safe harbor" from liability established by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, but are not limited to, any expected value of the contract; the scope, services, terms and results of the project awarded under the contract with the customer; the anticipated commencement and completion dates for the project; the safety, efficiency or success of the project; potential opportunities that may be indicated by bidding activity or similar discussions with customers; the impact of the project on refining operations or transportation capacity in the region; expectations regarding the business outlook, growth or opportunities in particular markets; the business plans or financial condition of customers; Quanta's plans and strategies; and prospective growth in the demand for oil and gas infrastructure; as well as statements reflecting expectations, intentions, assumptions or beliefs about future events and other statements that do not relate strictly to historical or current facts. Although Quanta's management believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. These statements can be affected by inaccurate assumptions and by a variety of risks and uncertainties that are difficult to predict or beyond our control, including, among
others, the effects of industry, economic or political conditions outside of the control of Quanta; successful performance and completion of the contract and the project awarded thereunder; failure to realize the anticipated value of the contract or the project; the potential for claims or damages associated with schedule delays or performance shortfalls, including as a result of warranty claims following completion of the project; the effect of natural gas, natural gas liquids and oil prices on operations and growth opportunities; the future development of natural resources in unconventional shale formations; the failure of subcontractors to perform their obligations, including warranty obligations, under their subcontracts; adverse changes in economic conditions and trends in relevant markets; future growth in the oil and gas industry; delays, reductions in scope or cancellations of the contract or the project awarded thereunder, including as a result of weather, regulatory or environmental issues; cancellation and termination provisions present in the contract; and other factors affecting the business of Quanta generally, including risks detailed in Quanta's Annual Report on Form 10-K for the year ended December 31, 2014, and any other documents filed by Quanta with the Securities and Exchange Commission (SEC). For a discussion of these risks, uncertainties and assumptions, investors are urged to refer to Quanta's documents filed with the SEC that are available through the company's website at www.quantaservices.com or through the SEC's Electronic Data Gathering and Analysis Retrieval System (EDGAR) at www.sec.gov. Should one or more of these risks materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those expressed or implied in any forward-looking statements. Investors are cautioned not to place undue reliance on these forward-looking statements, which are current only as of this date. Quanta does not undertake and expressly disclaims any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Quanta further expressly disclaims any written or oral statements made by any third party regarding the subject matter of this press release.
