QUANTA SERVICES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(UNAUDITED)

1. BUSINESS AND ORGANIZATION:

Quanta Services, Inc. (Quanta) is a leading provider of specialized contracting services, offering end-to-end network solutions to the electric power, gas, telecommunications and cable television industries. Our comprehensive services include designing, installing, repairing and maintaining network infrastructure. Reference herein to the "Company" includes Quanta and its subsidiaries. The consolidated financial statements of the Company include the accounts of Quanta and its wholly owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Since its inception and through 2001, Quanta acquired 86 businesses. The Company has acquired two additional businesses through June 30, 2002 for an aggregate consideration of 251,079 shares of common stock and approximately \$8.0 million in cash, net of cash acquired.

In the course of its operations, the Company is subject to certain risk factors, including but not limited to risks related to: rapid technological and structural changes in the industries the Company serves, internal growth and operating strategies, economic downturn, the collectibility of receivables, acquisition integration and financing, significant fluctuations in quarterly results, contracts, management of growth, dependence on key personnel, availability of qualified employees, unionized workforce, competition, recoverability of goodwill, potential exposure to environmental liabilities and anti-takeover measures.

On May 20, 2002, the Company and Aquila, Inc. (Aquila) announced that they reached an agreement for Aquila to terminate its proxy contest for control of Quanta's board of directors. Under the terms of the settlement, Aquila withdrew all pending litigation and arbitration against Quanta. The companies also agreed to a standstill whereby Aquila agreed not to purchase shares of Quanta's common stock on the open market, not to wage another proxy fight for control of Quanta and Quanta agreed to terminate the Stock Employee Compensation Trust (SECT). We recorded approximately \$5.9 million and \$10.5 million in proxy costs for the three and six months ended June 30, 2002 which are included in selling, general and administrative expenses.

#### Interim Condensed Consolidated Financial Information

These unaudited condensed consolidated financial statements have been prepared pursuant to the rules of the SEC. Certain information and footnote disclosures, normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States, have been condensed or omitted pursuant to those rules and regulations. The Company believes that the disclosures made are adequate to make the information presented not misleading. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary to fairly present the financial position, results of operations and cash flows with respect to the interim consolidated financial statements have been included. The results of operations for the interim periods are not necessarily indicative of the results for the entire fiscal year. The results of the Company have historically been subject to significant seasonal fluctuations.

It is suggested that these condensed consolidated financial statements be read in conjunction with the audited financial statements and notes thereto of Quanta Services, Inc. and subsidiaries included in the Company's Annual Report on Form 10-K, which was filed with the SEC on April 1, 2002.

#### Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the use of estimates and assumptions by management in determining the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities known to exist as of the date the financial statements are published and the reported amount of net revenues and expenses recognized during the periods presented. The Company reviews all significant estimates affecting its consolidated financial statements on a recurring basis and records the effect of any necessary adjustments prior to their publication. Judgments and estimates are based on the Company's beliefs and assumptions derived from information available at the time such judgments and estimates are made. Adjustments made with respect to the use of these estimates often relate to improved information not previously available. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of financial statements. Estimates are primarily used in the Company's assessment of the allowance for doubtful accounts, fair value assumptions

in analyzing goodwill impairment, revenue recognition under percentage-of-completion accounting and self-insured claims liabilities. The accompanying consolidated balance sheets include preliminary allocations of the respective purchase price paid for the companies acquired during the latest 12 months using the "purchase" method of accounting and, accordingly, are subject to final adjustment.

As of June 30, 2002, the Company has provided allowances for doubtful accounts of approximately \$41.4 million. Certain of the Company's customers, several of them large public telecommunications carriers, have filed for bankruptcy in the quarter ended June 30, 2002 or have been experiencing financial difficulties. Also, a number of the Company's utility customers are experiencing financial difficulties in the current business climate. Should additional customers file for bankruptcy or continue to experience difficulties,

or should anticipated recoveries relating to receivables in existing bankruptcies or other workout situations fail to materialize, the Company could experience reduced cash flows and losses in excess of current allowances provided. In addition, material changes in our customers revenues or cash flows could affect our ability to collect amounts due from them.

## 2. PER SHARE INFORMATION:

Earnings (loss) per share amounts are based on the weighted average number of shares of common stock and common stock equivalents outstanding during the period. The weighted average number of shares used to compute basic and diluted earnings per share for the three and six months ended June 30, 2001 and 2002 is illustrated below (in thousands):

Pursuant to EITF Topic D-95, "Effect of Participating Convertible Securities on the Computation of Basic Earnings Per Share," the impact of the Series A Convertible Preferred Stock has been included in the computation of basic earnings per share. For the three and six months ended June 30, 2001, stock options of approximately 1.1 million were excluded from the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the Company's common stock. For the three and six months ended June 30, 2002, stock options of approximately 8.1 million and 7.9 million, respectively, were excluded from the computation of diluted earnings per share, as the effect would have been antidilutive. For the three and six months ended June 30, 2001 and June 30, 2002, the effect of assuming conversion of the convertible subordinated notes would be antidilutive and they were therefore excluded from the calculation of diluted earnings per share.

## 3. INCOME TAXES:

Certain of the businesses the Company has acquired were S corporations for

income tax purposes and, accordingly, any income tax liabilities for the periods prior to the acquisitions are the responsibility of the respective stockholders. Effective with the acquisitions, the S corporations converted to C corporations. Accordingly, an estimated deferred tax liability has been recorded to provide for the estimated future income tax liability as a result of the difference between the book and tax bases of the net assets of these former S corporations. For purposes of these consolidated financial statements, federal and state income taxes have been provided for the post-acquisition periods.

#### 4. NEW ACCOUNTING PRONOUNCEMENTS:

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." SFAS No. 145 requires that gains and losses from extinguishment of debt be classified as extraordinary items only if they meet the criteria in Accounting Principles Board Opinion No. 30 (Opinion No. 30). Applying the

5

provisions of Opinion No. 30 will distinguish transactions that are part of an entity's recurring operations from those that are unusual and infrequent and meet the criteria for classification as an extraordinary item. SFAS No. 145 is effective for the Company beginning January 1, 2003. Upon the adoption of SFAS No. 145, if the Company records any extraordinary items related to the extinguishment of debt, the Company will have to reclassify such items in its prior period statements of operations to conform to the presentation required by SFAS No. 145. Under SFAS No. 145, the Company will report gains and losses on the extinguishment of debt in pre-tax earnings rather than in extraordinary items.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities, such as restructurings, involuntarily terminating employees and consolidating facilities, initiated after December 31, 2002.

#### 5. GOODWILL AND OTHER INTANGIBLES:

Effective January 1, 2002, the Company adopted SFAS No. 142, "Goodwill and Other Intangible Assets," which establishes new accounting and reporting requirements for goodwill and other intangible assets. Under SFAS No. 142, all goodwill amortization ceased effective January 1, 2002.

Material amounts of recorded goodwill attributable to each of the Company's reporting units were tested for impairment by comparing the fair value of each reporting unit with its carrying value. Fair value was determined using a combination of the discounted cash flow, market multiple and market capitalization valuation approaches. These impairment tests are required to be performed at adoption of SFAS No. 142 and at least annually thereafter. Significant estimates used in the methodologies include estimates of future cash flows, future short-term and long-term growth rates, weighted average cost of capital and estimates of market multiples for each of the reportable units. On an ongoing basis (absent any impairment indicators), the Company expects to perform impairment tests annually during the fourth quarter after the annual budgeting process.

Based on the Company's transitional impairment test performed upon adoption of SFAS No. 142, it recognized a \$488.5 million charge, (\$445.4 million, net of tax) to reduce the carrying value of goodwill to the implied fair value of the Company's reporting units. This impairment is a result of adopting a fair value approach, under SFAS No. 142, to testing impairment of goodwill as compared to the previous method utilized, as permitted under accounting standards existing at that time, in which evaluations of goodwill impairment were made by the Company using estimated future undiscounted cash flows to determine if goodwill would be recoverable. Under SFAS No. 142, the impairment adjustment recognized at adoption of the new rules was reflected as a cumulative effect of change in accounting principle, net of tax, in the six months ended June 30, 2002.

The Company further recognized an interim non-cash goodwill impairment charge of approximately \$166.6 million for the three months ended June 30, 2002. Impairment adjustments recognized after adoption are required to be recognized as operating expenses. The primary factor contributing to the interim impairment charge was the overall deterioration of the business climate during 2002 in the markets the Company serves as evidenced by an increased number of bankruptcies in the telecommunications industry, continued devaluation of several of our customers debt and equity securities and pricing pressures resulting from challenges faced by major industry participants. Fair value was determined using a combination of the discounted cash flow, market multiple and market capitalization valuation approaches.

A summary of changes in the Company's goodwill for the six months ended June 30, 2002 is as follows (in thousands):

<Table>	
<S>	
Balance, January 1, 2002 .....	<C>

	(166,580)
	-----
Balance, June 30, 2002 .....	\$ 393,756

</Table>	

The Company has also recorded an Other Intangible Asset of \$2.1 million related to customer relationships. The weighted average life of this intangible is eight years and accumulated amortization as of June 30, 2002 was approximately \$0.1 million. Estimated annual amortization expense for future periods is approximately \$0.3 million.

6

The unaudited results of operations presented below for the three and six months ended June 30, 2002 and adjusted results of operations for the three and six months ended June 30, 2001, reflect the operations of the Company had the non-amortization provisions of SFAS No. 142 been adopted effective January 1, 2001 (in thousands):

6. DEBT:

Credit Facility

The Company has a credit facility with 14 participating banks which matures on June 14, 2004. As of June 30, 2002, the commitment level of the banks was \$350.0 million. The credit facility is secured by a pledge of all of the capital stock of the Company's subsidiaries and the majority of the Company's assets and is to provide funds to be used for working capital and for other general corporate purposes. The Company's subsidiaries guarantee the repayment of all amounts due under the facility and the facility restricts pledges on all material assets. As of June 30, 2002, amounts borrowed under the credit facility bore interest at a rate equal to either (a) the London Interbank Offered Rate (the 30 day LIBOR rate was 1.88% at June 30, 2002) plus 1.00% to 2.00%, as determined by the ratio of the Company's total funded debt to EBITDA (as defined in the credit facility) or (b) the bank's prime rate (which was 4.75% at June 30, 2002) plus up to 0.25%, as determined by the ratio of the Company's total funded debt to EBITDA. Commitment fees of 0.25% to 0.50%, based on the Company's total funded debt to EBITDA, were due on any unused borrowing capacity under the credit facility. The credit facility contained usual and customary covenants for a credit facility of its nature, including the prohibition of the payment of dividends on common stock, certain financial ratios and indebtedness covenants and the consent of the lenders for acquisitions exceeding a certain level of cash consideration. As of June 30, 2002, \$123.0 million was borrowed under the credit facility, and the Company had \$62.3 million of letters of credit outstanding, resulting in a borrowing availability of \$164.7 million under the credit facility.

On August 12, 2002, the Company amended the credit facility. As of August 12, 2002, the commitment of the banks under the credit facility was reduced to \$275.0 million. The commitment will remain in effect at \$275.0 million through March 31, 2003, then reduce to \$250.0 million and remain in effect at such amount through December 31, 2003. Effective January 1, 2004, the credit facility will reduce to \$225.0 million and remain in effect at such amount through the remainder of the term of the credit facility, which matures on June 14, 2004. Amounts borrowed under the credit facility will bear interest at a rate equal to either (a) LIBOR plus 1.50% to 3.50%, as determined by the ratio of the Company's total funded debt to EBITDA or (b) the bank's prime rate plus up to 2.00%, as determined by the ratio of the Company's total funded debt to EBITDA. Commitment fees of 0.375% to 0.50%, based the Company's total funded debt to EBITDA, are due on any unused borrowing capacity under the credit facility. The amended credit

7

facility is less restrictive with respect to certain financial ratios and indebtedness covenants, including the maximum funded debt to EBITDA, maximum senior debt to EBITDA and minimum interest coverage ratios. However, the amendment is more restrictive with respect to the Company's capital expenditures and asset sales, prohibits any stock repurchase programs or acquisitions, and requires a mandatory reduction in the banks' commitment by a portion of the proceeds from asset sales or upon the issuance of additional debt in excess of \$15.0 million. As of August 9, 2002, we had approximately \$131.9 million in outstanding borrowings under the credit facility and \$62.3 million of letters of credit outstanding, resulting in a borrowing availability of \$80.8 million under the credit facility, as amended.

Senior Secured Notes

In 2000, the Company closed a private placement of \$210.0 million principal amount of senior secured notes primarily with insurance companies. The senior secured notes have maturities ranging from three to eight years and, as of June 30, 2002, had a weighted average interest rate of 8.41%. On August 12, 2002, the Company amended the senior secured notes. The senior secured notes, as amended, have financial covenants and restrictions substantially identical to the credit facility and a weighted average interest rate of 9.91%. The amendment also requires a mandatory prepayment of a portion of the proceeds of any asset sales or upon the issuance of additional debt in excess of \$15.0 million. In addition, the senior secured notes carry a make-whole provision customary for this type of debt instrument on prepayment of principal, including any mandatory prepayments.

Pursuant to an intercreditor agreement, the senior secured notes rank equally in right of repayment with indebtedness under the Company's credit facility.

In connection with the amendments of both the credit facility and the senior secured notes completed in August 2002, the Company incurred additional debt issuance costs estimated at approximately \$3.5 million. The Company will account for these costs in accordance with EITF 98-14 for the credit facility and EITF 96-19 for the senior secured notes. Accordingly, a majority of these costs will be capitalized and amortized over the remaining term of the respective agreements, as amended. As a result of the amendment decreasing the commitment amount of the credit facility, in accordance with EITF 98-14, the Company will be expensing a portion of the unamortized debt issuance costs as interest expense in the third quarter of 2002.

The Company has specifically provided for non-cash goodwill impairment charges of up to \$800 million in its credit facility and senior secured notes resulting from the adoption of SFAS No. 142. Goodwill impairment charges do not violate any covenants in the Company's convertible subordinated notes.

#### Convertible Subordinated Notes

During the third quarter of 2000, the Company issued \$172.5 million principal amount of convertible subordinated notes. The convertible subordinated notes bear interest at 4.0% per year and are convertible into shares of the Company's common stock at a price of \$54.53 per share. The convertible subordinated notes require semi-annual interest payments beginning December 31, 2000, until the notes mature on July 1, 2007. The Company has the option to redeem the notes beginning July 3, 2003; however, redemption is currently prohibited by the Company's credit facility and senior secured notes.

#### 7. STOCKHOLDERS' EQUITY:

##### Series A Convertible Preferred Stock

In September 1999, the Company entered into a securities purchase agreement with Aquila pursuant to which the Company issued 1,860,000 shares of Series A Convertible Preferred Stock, \$.00001 par value per share, for an initial investment of \$186.0 million, before transaction costs. In September 2000, Aquila converted 7,924,805 shares of common stock into an additional 1,584,961 shares of Series A Convertible Preferred Stock at a rate of one share of Series A Convertible Preferred Stock for five shares of common stock. The holders of the Series A Convertible Preferred Stock are entitled to receive dividends in cash at a rate of 0.5% per annum on an amount equal to \$53.99 per share, plus all unpaid dividends accrued. In addition to the preferred dividend, the holders are entitled to participate in any cash or non-cash dividends or distributions declared and paid on the shares of common stock, as if each share of Series A Convertible Preferred Stock had been converted into common stock at the applicable conversion price immediately prior to the record date for payment of such dividends or distributions. However, holders of Series A Convertible Preferred Stock will not participate in non-cash dividends or distributions if such dividends or distributions cause an adjustment in the price at which Series A Convertible Preferred Stock converts into common stock. At any time after the sixth anniversary of the issuance of the Series A Convertible Preferred Stock, if the closing price per share of the Company's common stock is greater than \$20.00, then the Company may terminate the preferred dividend. At any time after the sixth anniversary of the issuance of the Series A Convertible Preferred Stock, if the closing price per share of the Company's common stock is equal to or less than \$20.00, then the preferred dividend may, at the option of Aquila, be adjusted to the then "market coupon rate," which shall equal the Company's after-tax cost of obtaining financing, excluding common stock, to replace Aquila's investment in the Company.

Aquila is entitled to that number of votes equal to the number of shares of common stock into which the outstanding shares of Series A Convertible Preferred Stock are then convertible on any matter voted on by the holders of common stock. Subject to certain limitations, Aquila is entitled to elect up to three of the total number of directors of the Company. All or any portion of the outstanding shares of Series A Convertible Preferred Stock may, at the option of Aquila, be converted at any time into fully paid and non-assessable

shares of common stock. The conversion price currently is \$20.00, yielding 17,224,805 shares of common stock upon conversion of all outstanding shares of Series A Convertible Preferred Stock. The conversion price may be adjusted under certain circumstances.

#### Stockholder Rights Plan

On March 8, 2000, the board of directors of the Company adopted a Stockholder Rights Plan. On November 15, 2001, the board of directors amended the Stockholder Rights Plan and on November 18, 2001 and December 1, 2001, the board of directors ratified such amendments to the Stockholder Rights Plan.

Under the Stockholder Rights Plan, a dividend of one Preferred Stock Purchase Right (the Rights) was declared on each outstanding share of the Company's common stock and Series A Convertible Preferred Stock (on an as-converted basis) for holders of record as of the close of business on March 27, 2000. The Rights also attach to all common stock and Series A Convertible Preferred Stock issued after March 27, 2000. No separate certificates evidencing the Rights will be issued unless and until they become exercisable. Each Right has an initial exercise price of \$153.33. The Rights will be exercisable if a person or group (other than Aquila) becomes the beneficial owner of, or tenders for, 15% or more of the Company's common shares. The Rights also will be exercisable if Aquila, together with any affiliates or associates, becomes the beneficial owner of, or tenders for more than 39.0% of the outstanding shares of the Company's common stock on an as-converted basis, or if there is a change of control of Aquila. Upon a "Flip-In Event" as defined in the Stockholder Rights Plan, the Rights issued pursuant to the Stockholder Rights Plan would be exercisable for Series B Junior Participating Preferred Stock of the Company at a discount. In addition, the Rights held by an "Acquiring Person" as defined in the Stockholder Rights Plan will become exercisable upon a Flip-In Event for Series C Junior Convertible Preferred Stock. The Rights will expire in ten years.

On February 12, 2002, the board of directors further amended the Stockholder Rights Plan to provide that only outstanding shares of the Company's common stock and Series A Convertible Preferred Stock are to be counted in calculating the number of shares that Aquila could acquire while remaining an exempt person under the Stockholder Rights Plan. As amended, the Stockholder Rights Plan permits Aquila to beneficially own up to 39.0% of the outstanding shares of the Company's common stock (assuming conversion of all outstanding shares of the Company's Series A Convertible Preferred Stock) or such greater percentage as it may own as of the earlier of notice to Aquila of, or public announcement of, the February 2002 amendment.

On March 13, 2002, the board of directors further amended the Stockholder Rights Plan to render the Rights inapplicable to an offer for all outstanding shares of the Company's common stock in a manner that treats all stockholders equally if upon completion of the offer, the offeror owns shares of the Company's voting stock representing 75% or more of the then outstanding voting stock. The Stockholder Rights Plan as so amended would also require the bidder to commit irrevocably to purchase all shares not tendered at the same price paid to the tendering stockholders.

As part of the settlement of the proxy contest with Aquila, the Company agreed with Aquila to amend and restate the Stockholder Rights Plan (or to adopt a new rights plan) so that the Rights will become exercisable if a person or group (other than Aquila) becomes the beneficial owner of 15% of the voting power of the Company's capital stock, or if Aquila's beneficial ownership level in the Company increases from its level of beneficial ownership as of May 20, 2002.

#### Restricted Stock

Under the 2001 Stock Incentive Plan, 72,701 shares of the Company's common stock were issued in 2001 at a price of \$27.51 per share, which reflected the fair market value of the common stock at the date of issuance. The shares of common stock issued pursuant to the 2001 Stock Incentive Plan are subject to restrictions on transfer and certain other conditions. During the restriction period, the plan participants are entitled to vote and receive dividends on such shares.

Upon issuance of the 72,701 shares of the Company's common stock pursuant to the 2001 Stock Incentive Plan, an unamortized compensation expense equivalent to the market value of the shares on the date of grant was charged to stockholders' equity and will be amortized over the six year restriction period. The compensation expense taken with respect to the restricted shares during the three and six months ended June 30, 2002 was approximately \$62,000 and \$125,000, respectively.

#### Stock Employee Compensation Trust

On March 13, 2002, the Company's board of directors approved the creation of a SECT, to fund certain of the Company's future employee benefit obligations using the Company's common stock. The SECT was established by selling 8.0 million shares of the Company's common stock, including the 986,000 shares of treasury stock the Company purchased in 2001 pursuant to the Company's

Stock Repurchase Plan, to the SECT in exchange for a promissory note plus an amount in cash equal to the aggregate par value of the shares. As part of the settlement of the proxy contest with Aquila, on May 20, 2002, the Company terminated the SECT and repurchased the 7,911,069 shares of common stock remaining in the SECT by canceling the promissory note. The 7,911,069 shares were transferred into treasury stock on May 21, 2002, and were retired on June 28, 2002.

## Treasury Stock

The board of directors of the Company authorized a Stock Repurchase Plan under which up to \$75.0 million of the Company's common stock could be repurchased. Under the Stock Repurchase Plan, the Company could conduct purchases through open market transactions in accordance with applicable securities laws. During the second quarter of 2002, the Company purchased 924,500 shares of its common stock for approximately \$11.8 million under the Stock Repurchase Plan. As of July 1, 2002, the independent committee of Quanta's board of directors determined to cease the Stock Repurchase Plan. As a result of the credit facility and senior secured notes amendments, any further stock repurchases are prohibited.

## 8. SEGMENT INFORMATION:

The Company operates in one reportable segment as a specialty contractor. The Company provides comprehensive network solutions to the electric power, gas, telecommunications and cable television industries, including designing, installing, repairing and maintaining network infrastructure. Each of these services is provided by various Company subsidiaries and discrete financial information is not provided to management at the service level. The following table presents information regarding revenues derived from the industries noted above.

## 9. RELATED PARTY TRANSACTIONS:

In September 1999, the Company entered into a strategic alliance agreement with Aquila. Under the terms of the strategic alliance agreement, Aquila will use the Company, subject to the Company's ability to perform the required services, as a preferred contractor in outsourced transmission and distribution infrastructure installation and maintenance and natural gas distribution, installation and maintenance in all areas serviced by Aquila, provided that the Company provides such services at a competitive cost. The strategic alliance agreement has a term of six years.

## 10. COMMITMENTS AND CONTINGENCIES:

### Litigation

On December 21, 2001, a purported stockholder of Quanta filed a putative class action and derivative complaint against directors Vincent D. Foster, Jerry J. Langdon, Louis C. Golm, James R. Ball, John R. Colson, John R. Wilson and Gary A. Tucci. The complaint also named Quanta as a nominal defendant. The complaint alleged that the named directors breached their fiduciary duties by taking certain actions, including the Stockholder Rights Plan amendment, in response to the announcement by Aquila that it intended to acquire control of Quanta through open market purchases of the Company's shares. The complaint sought an order rescinding any actions taken by the named directors in response to the announcement by Aquila and requiring the directors to take steps necessary to maximize the value of Quanta. The complaint further sought damages from the named directors on behalf of a class of stockholders and purportedly on behalf of Quanta for the alleged harm inflicted by the actions of the named directors. On January 22, 2002, Quanta and the named directors filed a motion to dismiss the stockholder complaint. There has been no activity since January 2002. Although the ultimate outcome and liability, if any, cannot be determined, management, after consultation and review with counsel, believes that the facts do not support the plaintiff's claims and that the Company and the named directors have meritorious defenses.

On March 21, 2002, Aquila filed a complaint in the Delaware Court of Chancery naming Quanta and each member of the special committee of the Company's board of directors, consisting of all directors other than those designated by Aquila, as defendants. The Aquila complaint alleged that the special committee breached its fiduciary duty in connection with the March 13, 2002 adoption of the Company's SECT and the new employment agreements entered into with certain of the Company's employees and that under Delaware statutory law the shares sold to the SECT were not entitled to vote. As part of the settlement of Aquila's proxy contest, this lawsuit was dismissed with prejudice.

In addition, certain subsidiaries of the Company are involved in disputes or legal actions arising in the ordinary course of business. Management does not believe the outcome of such legal actions will have a material adverse effect on the Company's financial position or results of operations.

#### Self-Insurance

The Company is insured for workers' compensation, employer's liability, auto liability and general liability claims, subject to a deductible, as of June 30, 2002, of \$500,000 per accident or occurrence. On August 1, 2002, upon renewal of the Company's policies, the deductible was increased to \$1,000,000 per occurrence. In addition, effective January 1, 2002, the Company consolidated the various non-union employee related health care benefits plans that existed at certain of its subsidiaries into one corporate plan that is subject to a deductible of \$250,000 per claimant per year. Losses up to the deductible amounts are accrued based upon the Company's estimates of the ultimate liability for claims incurred and an estimate of claims incurred but not reported. The accruals are based upon known facts and historical trends and management believes such accruals to be adequate. At December 31, 2001 and June 30, 2002, the amounts accrued for self-insured claims were \$28.3 million and \$39.6 million, respectively, with \$14.7 million and \$24.4 million, respectively, considered to be long-term and included in Other Non-Current Liabilities.

#### Derivatives

SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended, was effective for the Company on January 1, 2001. These statements establish accounting and reporting standards requiring that all derivative instruments be recorded as either assets or liabilities measured at fair value. These statements also require that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met.

In October 2001, the Company entered into a forward purchase contract (Contract A) with settlements through 2006, in order to secure pricing on anticipated gas requirements related to a project in process at December 31, 2001 that was substantially complete at March 31, 2002. The objective was to mitigate the variability in the price of natural gas by securing the price the Company will have to pay the Contract A counterparty. On March 29, 2002, the Company entered into a sub-services agreement with one of its customers (the Counterparty Contract) whereby the customer assumed all obligations associated with Contract A. If the customer is unable to fulfill its obligations under the Counterparty Contract, the Company will be responsible for settling the obligations of Contract A. As of June 30, 2002, the fair value of Contract A and the Counterparty Contract was a receivable of \$1.2 million and a payable of \$1.2 million, respectively.

In April 2002, the Company entered into another forward purchase contract (Contract B) with settlements through March 2003, in order to secure pricing on anticipated gas requirements related to a project in process at June 30, 2002. The objective was to mitigate the variability in the price of natural gas by securing the price the Company will have to pay the Contract B counterparty. As of June 30, 2002, the fair value of Contract B was \$354,000.

#### Performance Bonds

In certain circumstances, the Company is required to provide performance bonds in connection with its contractual commitments.

#### Contingent Consideration

The Company is subject to an agreement with the former owners of an operating unit that was acquired in 2000. Under the terms of this agreement, and depending upon the ultimate profitability of certain contracts obtained by the operating unit, the Company may be required to pay additional consideration to such former owners with a combination of common stock and cash. At June 30, 2002, the amount of additional consideration based on performance to date was approximately \$16.9 million. This amount could be adjusted significantly higher or lower over the term of the agreement.

## INTRODUCTION

The following discussion should be read in conjunction with the Condensed Consolidated Financial Statements and related notes thereto included elsewhere in this Quarterly Report on Form 10-Q and in our Annual Report on Form 10-K, which was filed with the SEC on April 1, 2002, which is available at the SEC's Web site at [www.sec.gov](http://www.sec.gov).

We derive our revenues from one reportable segment by providing specialized contracting services and offering comprehensive network solutions. Our customers include electric power, gas, telecommunications and cable television companies, as well as commercial, industrial and governmental entities.

We enter into contracts principally on the basis of competitive unit price or fixed price bids, the final terms and prices of which we frequently negotiate with the customer. Although the terms of our contracts vary considerably, most are made on either a unit price or fixed price basis in which we agree to do the work for a price per unit of work performed (unit price) or for a fixed amount for the entire project (fixed price). We also perform services on a cost-plus or time and materials basis. We complete most installation projects within one year, while we frequently provide maintenance and repair work under open-ended, unit price master service agreements which are renewable annually. We generally recognize revenue when services are performed except when work is being performed under fixed price contracts. We typically record revenues from fixed price contracts on a percentage-of-completion basis, using the cost-to-cost method based on the percentage of total costs incurred to date in proportion to total estimated costs to complete the contract. Some of our customers require us to post performance and payment bonds upon execution of the contract, depending upon the nature of the work to be performed. Our fixed price contracts often include payment provisions pursuant to which the customer withholds a 5% to 10% retainage from each progress payment and remits the retainage to us upon completion and approval of the work.

Cost of services consists primarily of salaries, wages and benefits to employees, depreciation, fuel and other vehicle expenses, equipment rentals, subcontracted services, insurance, facilities expenses, materials and parts and supplies. Our gross margin, which is gross profit expressed as a percentage of revenues, is typically higher on projects where labor, rather than materials, constitutes a greater portion of the cost of services. We can predict materials costs more accurately than labor costs. Therefore, to compensate for the potential variability of labor costs, we seek to maintain higher margins on our labor-intensive projects. As of June 30, 2002, we had a deductible of \$500,000 per accident or occurrence related to workers' compensation, employer's liability, automobile and general liability claims. On August 1, 2002, upon renewal of our policies, the deductible was increased to \$1,000,000 per occurrence. In addition, effective January 1, 2002, we consolidated the various non-union employee related health care benefits plans that existed at certain of our subsidiaries into one corporate plan that is subject to a deductible of \$250,000 per claimant per year. Fluctuations in insurance accruals related to these deductibles could have an impact on operating margins in the period in which such adjustments are made.

Selling, general and administrative expenses consist primarily of compensation and related benefits to management, administrative salaries and benefits, marketing, office rent and utilities, communications, professional fees and bad debt expense. Selling, general and administrative expenses can be impacted by our customers' inability to pay for services performed.

## SIGNIFICANT BALANCE SHEET CHANGES

Total assets decreased approximately \$636.3 million as of June 30, 2002 compared to December 31, 2001. This decrease is primarily due to the following:

- o Goodwill and other intangibles, net decreased \$641.3 million due to impairments of goodwill pursuant to Statement of Financial Accounting Standard (SFAS) No. 142, "Goodwill and Other Intangible Assets," which requires goodwill to be tested for impairment by comparing the fair value of each subsidiary with its carrying value.
- o Accounts receivable and costs and estimated earnings in excess of billings on uncompleted contracts decreased \$30.3 million primarily due to lower levels of revenue during the first six months of 2002, collections on accounts that were outstanding at December 31, 2001 and an increase of \$5.6 million in the allowance for doubtful accounts to reserve for certain customers that have declared bankruptcy during 2002.
- o Inventories increased \$6.1 million due primarily to \$5.0 million paid for deposits for turbines to be used in future projects, and \$1.1 million due to the purchase of cable to perform work on master service

contracts.

- o Property and equipment, net increased \$4.3 million due to expenditures for equipment necessary to perform contracts and equipment obtained through the acquisition of two companies during the first six months of 2002, offset by depreciation expense recorded during the period.
- o Other assets, net increased \$22.2 million due primarily to notes receivable from one of our customers. We have agreed to long-term payment terms until this customer is able to secure alternative financing. The receivables are partially secured and bear interest at 9% per year. At June 30, 2002, the total amount due under these arrangements was \$45.6 million, with \$40.6 million classified as non-current.

As of June 30, 2002, total liabilities decreased approximately \$21.7 million and stockholders' equity decreased approximately \$614.6 million. These fluctuations were primarily due to the following:

- o Deferred income taxes and other non-current liabilities decreased \$33.9 million primarily as a result of the recording of a deferred tax asset for the tax benefit related to the impairments of goodwill pursuant to SFAS No. 142, partially offset by increases in the long-term portion of self-insurance reserves.
- o Long-term debt, net of current maturities increased \$10.9 million due primarily to borrowings made against our credit facility for the purchase of two companies during the first six months of 2002.
- o Stockholders' equity decreased \$614.6 million during the first six months of 2002. This was primarily the result of a net loss attributable to common stock of \$612.8 million associated with the impairments of goodwill recorded pursuant to SFAS No. 142 and the purchase of approximately \$11.8 million of treasury stock under the Company's Stock Repurchase Plan, partially offset by the issuance of approximately \$3.7 million in shares of common stock pursuant to the employee stock purchase plan and the acquisition of two companies which resulted in increased additional paid in capital of \$3.4 million.

THREE AND SIX MONTHS ENDED JUNE 30, 2002, COMPARED TO THE THREE AND SIX MONTHS ENDED JUNE 30, 2001.

Revenues. Revenues decreased \$70.8 million and \$140.6 million or, 14.1% and 13.8%, to \$432.5 million and \$881.7 million for the three and six months ended June 30, 2002. The decrease was attributable to lower revenues, primarily from telecommunications and cable customers, due in part to the continued decrease in capital spending by our customers, the inability of certain of these customers to raise new capital, bankruptcies of certain customers and the overall downturn in the national economy, which have negatively impacted the award of work to specialty contractors. This decrease was partially offset by a full period of contributed revenues for the three and six months ended June 30, 2002 for those companies acquired during 2001.

Gross profit. Gross profit decreased \$62.6 million and \$95.9 million, or 56.5% and 43.6%, to \$48.2 million and \$123.8 million for the three and six months ended June 30, 2002. As a percentage of revenues, gross margin decreased from 22.0% for the three months ended June 30, 2001, to 11.1% for the three months ended June 30, 2002. This decrease in gross margin resulted primarily from declining volumes due to economic factors noted above, significantly lower margins on work performed due to increased pricing pressures and lower asset utilization. Gross margin decreased from 21.5% for the six months ended June 30, 2001, to 14.0% for the six months ended June 30, 2002. The decrease in gross margins for the six months ended June 30, 2002, resulted from the factors noted above for the three months ended June 30, 2002, and higher than normal transition costs on one telecommunications outsourcing contract.

Selling, general and administrative expenses. Selling, general and administrative expenses decreased \$1.0 million and increased \$7.7 million, or 1.7% and 7.5%, to \$59.5 million and \$110.2 million for the three and six months ended June 30, 2002. During the three months ended June 30, 2002, we recorded \$8.4 million in bad debt expense and \$5.9 million in additional proxy costs. During the three months ended June 30, 2001, we recorded \$19.4 million in charges including \$16.2 million in bad debt expense and \$3.2 million in charges associated with the realignment of field personnel and discontinuance of negotiations regarding certain acquisitions. Absent the charges discussed above, selling, general and administrative expenses for the three months ended June 30, 2002 increased approximately \$4.1 million, primarily due to the inclusion of a full three months of costs associated with companies acquired after June 2001, higher professional fees due to increased collection efforts on troubled accounts and higher advertising and travel costs associated with increased marketing efforts. For the six months ended June 30, 2002, selling, general and administrative expenses increased due to the impact of the costs previously described and proxy costs incurred in the first quarter of 2002 of \$4.6 million.

Goodwill impairment. During the second quarter of 2002, we recognized an interim non-cash SFAS No. 142 goodwill impairment charge of \$166.6 million. Any interim impairment adjustments recognized after adoption are required to be recognized as operating expenses. The primary factor contributing to the interim impairment charge was the overall deterioration of the business climate during 2002 in the markets we serve.

Interest expense. Interest expense decreased \$1.1 million and \$2.5 million, or 12.1% and 13.5%, to \$8.0 million and \$15.9 million, for the three and six months ended June 30, 2002, due to lower average levels of debt outstanding under the credit facility for the three and six months ended June 30, 2002 and lower average interest rates.

Provision (benefit) for income taxes. The benefit for income taxes was \$7.6 million and \$0.3 million for the three and six months ended, June 30, 2002, with an effective tax rate of (4.1%) and 0.2%, respectively, compared to a provision of \$17.3 million and \$39.4 million for the three and six months ended June 30, 2001, with effective tax rates of 50.9% and 46.1%, respectively. The lower tax rate in 2002 reflects the elimination of goodwill amortization expense according to the current accounting standard, the majority of which had been non-deductible in 2001. Our 2002 annual tax rate is expected to be approximately 0.0% due to the net realizable benefit relating to the goodwill impairment charge offset by tax expense on permanent differences.

Cumulative effect of change in accounting principle, net of tax. Based on our transitional impairment test performed upon adoption of SFAS No. 142, we recognized a charge, net of tax, of \$445.4 million to reduce the carrying value of the goodwill of our reporting units to its implied fair value. Under SFAS No. 142, the impairment adjustment recognized at adoption of the new rule was reflected as a cumulative effect of change in accounting principle in the six months ended June 30, 2002.

Net Income (loss). Net income decreased \$193.9 million and \$658.3 million to net losses of \$177.2 million and \$612.4 million for the three and six months ended June 30, 2002, compared to net income of \$16.7 million and \$46.0 million for the three and six months ended June 30, 2001, primarily due to impairments of goodwill recorded pursuant to SFAS No. 142 and decreased gross profit as described above.

#### LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2002, we had cash and cash equivalents of \$4.6 million, working capital of \$312.8 million and long-term debt of \$511.2 million, net of current maturities. Our long-term debt balance at that date included borrowings of \$123.0 million under our credit facility, \$210.0 million of senior secured notes, \$172.5 million of convertible subordinated notes and \$5.7 million of other debt. In addition, we had \$62.3 million of letters of credit outstanding under the credit facility.

During the six months ended June 30, 2002, operating activities provided net cash flow of \$52.8 million. We used net cash in investing activities of \$56.8 million, including \$33.4 million used for capital expenditures, \$8.0 million used for the purchase of two businesses, net of cash acquired, and \$17.2 million in additional notes receivable issued during the six months. Financing activities provided a net cash flow of \$2.3 million, resulting primarily from \$13.7 million of borrowings under our credit facility, partially offset by \$11.8 million from the purchase of common stock under the Stock Repurchase Plan.

On August 12, 2002, we amended our credit facility. As of August 12, 2002, the commitment of the banks under the credit facility was reduced to \$275.0 million. The commitment will remain in effect at \$275.0 million through March 31, 2003, then reduce to \$250.0 million and remain in effect at such amount through December 31, 2003. Effective January 1, 2004, the credit facility will reduce to \$225.0 million and remain in effect at such amount through the remainder of the term of the credit facility, which matures on June 14, 2004. Amounts borrowed under the credit facility will bear interest at a rate equal to either (a) LIBOR plus 1.50% to 3.50%, as determined by the ratio of our total funded debt to EBITDA or (b) the bank's prime rate plus up to 2.00%, as determined by the ratio of our total funded debt to EBITDA. Commitment fees of 0.375% to 0.50%, based on our total funded debt to EBITDA, are due on any unused borrowing capacity under the credit facility. The amended credit facility is less restrictive with respect to certain financial ratios and indebtedness covenants, including the maximum funded debt to EBITDA, maximum senior debt to EBITDA and minimum interest coverage. However, the amendment is more restrictive with respect to our capital expenditures and asset sales, prohibits any stock repurchase programs or acquisitions, and requires mandatory reduction in the banks' commitment by a portion of the proceeds from asset sales or upon the issuance of additional debt in excess of \$15.0 million. As of August 9, 2002, we had approximately \$131.9 million in outstanding borrowings under the credit facility and \$62.3 million of letters of credit outstanding, resulting in a borrowing availability of \$80.8 million under the credit facility, as amended. Our current borrowing rate is LIBOR plus 3.50%.

As of June 30, 2002, we had \$210.0 million of senior secured notes which have maturities ranging from three to eight years with a weighted average interest rate of 8.41%. On August 12, 2002, we amended the senior secured notes. The senior secured notes, as amended, have financial covenants and restrictions substantially identical to those under the credit facility and a weighted average interest rate of 9.91%. The amendment also requires a mandatory prepayment of a portion of the proceeds of any asset sales or upon the issuance of additional debt in excess of \$15.0 million. In addition, the senior secured

notes carry a make-whole provision customary for this type of debt instrument on prepayment of principal, including, any mandatory prepayments. Pursuant to an intercreditor agreement, the senior secured notes rank equally in right of repayment with indebtedness under our credit facility.

In connection with the amendments of both the credit facility and the senior secured notes in August 2002, we incurred additional debt issuance costs estimated at approximately \$3.5 million. We will account for these costs in accordance with EITF 98-14 for the credit facility and EITF 96-19 for the senior secured notes. Accordingly, a majority of these costs will be capitalized and amortized over the remaining term of the respective agreements, as amended. As a result of the amendment decreasing the commitment amount of the credit facility, in accordance with EITF 98-14, we will be expensing a portion of the unamortized debt issuance costs as interest expense in the third quarter of 2002.

As of June 30, 2002, we had \$172.5 million in convertible subordinated notes that bear interest at 4.0% per year and are convertible into shares of our common stock at a price of \$54.53 per share, subject to adjustment as a result of certain events. The convertible subordinated notes require semi-annual interest payments until the notes mature on July 1, 2007. We have the option to redeem some or all of the convertible subordinated notes beginning July 3, 2003 at specified redemption prices, together with accrued and unpaid interest. If certain fundamental changes occur, as described in the indenture under which we issued the convertible subordinated notes, holders of the convertible subordinated notes may require us to purchase all or part of their notes at a purchase price equal to 100% of the principle amount, plus accrued and unpaid interest.

We anticipate that our cash flow from operations and our credit facility will provide sufficient cash to enable us to meet our working capital needs, debt service requirements and planned capital expenditures for property and equipment for at least the next 12 months. However, further deterioration in the markets we serve, coupled with the lowered capacity under our credit facility, may negatively impact our ability to meet such needs.

We have specifically provided for non-cash goodwill impairment charges up to \$800 million in our credit facility and senior secured notes resulting from the adoption of SFAS No. 142. Goodwill impairment charges do not violate any covenants in our convertible subordinated notes.

Other Commitments. As is common in our industry, we have entered into certain off-balance sheet arrangements in the ordinary course of business that result in risks not directly reflected in our balance sheets. Our significant off-balance sheet transactions include liabilities associated with non-cancelable operating leases, letter of credit obligations and surety guarantees. We have not engaged in any off-balance sheet financing arrangements through special purpose entities.

We enter into non-cancelable operating leases for many of our facility, vehicle and equipment needs. These leases allow us to conserve cash by paying a monthly lease rental fee for use of facilities, vehicles and equipment rather than purchasing them. At the end of the lease, we have no further obligation to the lessor. We may decide to cancel or terminate a lease before the end of its term. Typically we are liable to the lessor for the remaining lease payments under the term of the lease.

Some customers require us to post letters of credit to guarantee performance under our contracts and to ensure payment to our subcontractors and vendors under those contracts. Certain of our vendors also require letters of credit to ensure reimbursement for amounts they are disbursing on behalf of us, such as to beneficiaries under our self-funded insurance programs. Such letters of credit are generally issued by a bank or similar financial institution. The letter of credit commits the issuer to pay specified amounts to the holder of the letter of credit if the holder demonstrates that we have failed to perform specified actions. If this were to occur, we would be required to reimburse the issuer of the letter of credit. Depending on the circumstances of such a reimbursement, we may also have to record a charge to earnings for the reimbursement. To date, we have not had a claim made against a letter of credit that resulted in payments by the issuer of the letter of credit or by us and do not believe that it is likely that any claims will be made under a letter of credit in the foreseeable future.

Many customers, particularly in connection with new construction, require us to post performance and payment bonds issued by a financial institution known as a surety. These bonds provide a guarantee to the customer that we will perform under the terms of a contract and that we will pay subcontractors and vendors. If we fail to perform under a contract or to pay subcontractors and vendors, the customer may demand that the surety make payments or provide services under the bond. We must reimburse the surety for any expenses or outlays it incurs. To date, we have not had any significant reimbursements to our surety for bond-related costs. We believe that it is unlikely that we will have to fund

significant claims under our surety arrangements in the foreseeable future.

Our future contractual obligations, including interest under capital leases, are as follows (in thousands):

We also had \$62.3 million in letters of credit outstanding under our credit facility primarily to secure obligations under our casualty insurance program at June 30, 2002. While not actual borrowings, letters of credit do reflect potential liabilities under our credit facility and therefore are treated as a use of borrowing capacity under our credit facility. These are irrevocable stand-by letters of credit with maturities expiring at various times throughout 2002. Upon maturity, it is expected that the majority of these letters of credit will be renewed for subsequent one year periods. Borrowing availability under our credit facility was \$164.7 million as of June 30, 2002 and was \$80.8 under the credit facility, as amended, as of August 9, 2002.

Stock Repurchase Plan. Our board of directors authorized a Stock Repurchase Plan under which up to \$75.0 million of our common stock could be repurchased. Under the Stock Repurchase Plan, we could conduct purchases through open market transactions in accordance with applicable securities laws. During 2001, we purchased 986,000 shares of common stock for approximately \$15.3 million. On March 13, 2002, the 986,000 shares of common stock were sold to the Stock Employee Compensation Trust (SECT), and were no longer considered treasury stock. These shares were subsequently retired on June 28, 2002, after we terminated the SECT. During the second quarter of 2002, Quanta purchased 924,500 shares of its common stock for approximately \$11.8 million under the Stock Repurchase Plan. As of July 1, 2002, the independent committee of our board of directors determined to cease the Stock Repurchase Plan. As a result of the credit facility and senior secured notes amendments, any further stock repurchases are prohibited.

Stock Employee Compensation Trust. On March 13, 2002, our board of directors approved the creation of a SECT, to fund certain of our future employee benefit obligations using our common stock. The SECT was established by selling 8.0 million shares of our common stock, including the 986,000 shares of treasury stock we purchased during 2001 pursuant to our Stock Repurchase Plan, to the SECT in exchange for a promissory note plus an amount in cash equal to the aggregate par value of the shares. As part of the settlement of the proxy contest with Aquila, on May 20, 2002, we terminated the SECT and repurchased the 7,911,069 shares of common stock remaining in the SECT by canceling the promissory note. The 7,911,069 shares transferred into treasury stock on May 21, 2002 and were retired on June 28, 2002.

Litigation. On December 21, 2001, a purported stockholder of Quanta filed a putative class action and derivative complaint against directors Vincent D. Foster, Jerry J. Langdon, Louis C. Golm, James R. Ball, John R. Colson, John R. Wilson and Gary A. Tucci. The complaint also named Quanta as a nominal defendant. The complaint alleged that the named directors breached their fiduciary duties by taking certain actions, including the Stockholder Rights Plan amendment, in response to the announcement by Aquila that it intended to acquire control of Quanta through open market purchases of our shares. The complaint sought an order rescinding any actions taken by the named directors in response to the announcement by Aquila and requiring the directors to take steps necessary to maximize the value of Quanta. The complaint further sought damages from the named directors on behalf of a class of stockholders and purportedly on behalf of Quanta for the alleged harm inflicted by the actions of the named directors. On January 22, 2002 Quanta and the named directors filed a motion to dismiss the stockholder complaint. There has been no activity since January 2002. Although the ultimate outcome and liability, if any, cannot be determined, management, after consultation and review with counsel, believes that the facts do not support the plaintiff's claims and that Quanta and the named directors have meritorious defenses.

On March 21, 2002, Aquila filed a complaint in the Delaware Court of Chancery naming Quanta and each member of the special committee of our board of directors, consisting of all directors other than those designated by Aquila, as defendants. The Aquila complaint alleged that the special committee breached its fiduciary duty in connection with the March 13, 2002 adoption of the SECT and the new employment agreements entered into with certain of our employees and that under Delaware statutory laws the shares sold to the SECT were not entitled

to vote. As part of the settlement of Aquila's proxy contest, this lawsuit was dismissed with prejudice.

In addition, certain of our subsidiaries are involved in disputes or legal actions arising in the ordinary course of business. We do not believe the outcome of such legal actions will have a material adverse effect on our financial position or results of operations.

Acquisitions. During the first six months of 2002, we acquired two companies for an aggregate consideration of 251,079 shares of common stock and approximately \$8.0 million in cash, net of cash acquired. The cash portion of such consideration was provided by proceeds from borrowings under the credit facility. In connection with the amendment of our credit facility and senior secured notes, we are prohibited from making additional acquisitions.

Concentration of Credit Risk. We grant credit, generally without collateral, to our customers, which include electric power and gas companies, telecommunications and cable television system operators, governmental entities, general contractors, builders and owners and managers of commercial and industrial properties located primarily in the United States. Consequently, we are subject to

17

potential credit risk related to changes in business and economic factors throughout the United States. We generally are entitled for work performed and have certain lien rights on our services provided. As previously discussed herein, our customers in the telecommunications business have experienced significant financial difficulties and, in several instances, filed for bankruptcy. Also, our utility customers are experiencing business challenges in the current business climate. These economic conditions expose us to increased risk related to collectibility on services we have performed. No customer accounted for more than 10% of accounts receivable or revenues for the six months ended June 30, 2001 or 2002.

Related Party Transactions. In the normal course of business, we from time to time enter into transactions with related parties. These transactions typically take the form of network service work for Aquila or facility leases with prior owners. See additional discussion in Note 9 of Notes to Condensed Consolidated Financial Statements.

#### SEASONALITY; FLUCTUATIONS OF QUARTERLY RESULTS

Our results of operations can be subject to seasonal variations. During the winter months, demand for new projects and new maintenance service arrangements may be lower due to reduced construction activity. However, demand for repair and maintenance services attributable to damage caused by inclement weather during the winter months may partially offset the loss of revenues from lower demand for new projects and new maintenance service arrangements. Additionally, our industry can be highly cyclical. As a result, our volume of business may be adversely affected by declines in new projects in various geographic regions in the U.S. Typically, we experience lower gross and operating margins during the winter months. The timing of acquisitions, variations in the margins of projects performed during any particular quarter, the timing and magnitude of acquisition assimilation costs, regional economic conditions and our customer's access to capital may also materially affect quarterly results. Accordingly, our operating results in any particular quarter may not be indicative of the results that can be expected for any other quarter or for the entire year.

#### NEW ACCOUNTING PRONOUNCEMENTS

In April 2002, the FASB issued SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections." SFAS No. 145 requires that gains and losses from extinguishment of debt be classified as extraordinary items only if they meet the criteria in Accounting Principles Board Opinion No. 30 (Opinion No. 30). Applying the provisions of Opinion No. 30 will distinguish transactions that are part of an entity's recurring operations from those that are unusual and infrequent and meet the criteria for classification as an extraordinary item. SFAS No. 145 is effective for us beginning January 1, 2003. Upon the adoption of SFAS No. 145, if we record any extraordinary items related to the extinguishment of debt, we will have to reclassify such items in our prior period statements of operations to conform to the presentation required by SFAS No. 145. Under SFAS No. 145, we will report gains and losses on the extinguishment of debt in pre-tax earnings rather than in extraordinary items.

In July 2002, the FASB issued SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities, such as restructurings, involuntarily terminating employees and consolidating facilities initiated after December 31, 2002.

#### CRITICAL ACCOUNTING POLICIES

The discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities known to exist at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. We evaluate our estimates on an ongoing basis, based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates. Management has reviewed its development and selection of critical accounting estimates with the audit committee of our board of directors. We believe the following accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements:

Accounts Receivable and Provision for Doubtful Accounts. We provide an allowance for doubtful accounts when collection of an account receivable is considered doubtful. Inherent in the assessment of the allowance for doubtful accounts are certain judgments and estimates including, among others, our customer's access to capital, our customer's willingness or ability to pay, general economic conditions and the ongoing relationship with the customer. For example, certain of our customers, primarily large public telecommunications carriers, have filed for bankruptcy in the quarter ended June 30, 2002, or have been experiencing financial difficulties, and as a result we increased our reserves in June 2002 to reflect that certain customers may be unable to meet

18

their obligations to us in the future. Should additional customers file for bankruptcy or experience difficulties, or should anticipated recoveries relating to the receivables in existing bankruptcies and other workout situations fail to materialize, we could experience reduced cash flows and losses in excess of current reserves.

Goodwill. As stated in Note 5 of Notes to Condensed Consolidated Financial Statements, FASB Statement No. 142 provides that goodwill and other intangible assets that have indefinite useful lives will not be amortized, but instead must be tested at least annually for impairment, and intangible assets that have finite useful lives should continue to be amortized over their useful lives. Statement No. 142 also provides specific guidance for testing goodwill and other nonamortized intangible assets for impairment. Goodwill of a reporting unit shall be tested for impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Examples of such events or circumstances may include a significant change in business climate, or a loss of key personnel, among others. The Statement requires that management make certain estimates and assumptions in order to allocate goodwill to reporting units and to determine the fair value of reporting unit net assets and liabilities, including, among other things, an assessment of market conditions, projected cash flows, cost of capital and growth rates, which could significantly impact the reported value of goodwill and other intangible assets, as compared to our accounting policy for the assessment of goodwill impairment in 2001, which was based on an undiscounted cash flow model. Estimating future cash flows requires significant judgment and our projections may vary from cash flows eventually realized.

Revenue Recognition. We typically record revenues from fixed price contracts on a percentage-of-completion basis, using the cost-to-cost method based on the percentage of total costs incurred to date in proportion to total estimated costs to complete the contract. Changes in job performance, job conditions and final contract settlements, among others, are factors that influence the assessment of the total estimated costs to complete these contracts.

Self-Insurance. We are insured for workers' compensation, employer's liability, auto liability and general liability claims, subject to a deductible of \$500,000 per accident or occurrence. On August 1, 2002, upon renewal of our policies, the deductible was increased to \$1,000,000 per occurrence. In addition, effective January 1, 2002, we consolidated the various non-union employee related health care benefits plans that existed at certain of our subsidiaries into one corporate plan which is subject to a deductible of \$250,000 per claimant per year. Losses up to the deductible amounts are accrued based upon our estimates of the ultimate liability for claims incurred and an estimate of claims incurred but not reported. However, insurance liabilities are difficult to assess and estimate due to unknown factors, including the severity of an injury, the determination of our liability in proportion to other parties, the number of incidents not reported and the effectiveness of our safety program. The accruals are based upon known facts and historical trends and management believes such accruals to be adequate.

## OUTLOOK

The following statements are based on current expectations. These statements are forward looking, and actual results may differ materially.

Like many companies who provide installation and maintenance services to the electrical power, gas, telecommunications and cable television industries, we are facing a number of challenges. Our operating environment has changed dramatically. The telecommunications and utility markets have experienced substantial change in just the past few months as evidenced by an increased number of bankruptcies in the telecommunications market, continued devaluation of several of our utility clients debt and equity securities and pricing pressures resulting from challenges faced by major industry participants. These factors have contributed to the delay and cancellation of projects and reduction of capital spending that have impacted our operations and ability to grow at historical levels.

We continue to focus on the elements of the business we can control, including cost control, the margins we accept on projects, collecting receivables, ensuring quality service and right sizing initiatives to match the markets we serve. These initiatives include aligning our work force with our current revenue base, evaluating opportunities to reduce the number of field offices and evaluating our non-core assets for potential sale. Such initiatives could result in future charges related to, among others, severance, facility and other exit costs as we execute upon these initiatives.

We expect continued demand for our services from our utility and gas customers throughout 2002 with continued weakness in demand for our services from our telecommunications and cable customers and relatively level demand for our services from our ancillary customers. Competitive pressures on our customers caused by deregulation, return to core competencies and cost reductions have caused an increased focus on outsourcing services. We believe that we are adequately positioned to provide these services with our proven full-service providers with broad geographic reach, financial capability and technical expertise.

## UNCERTAINTY OF FORWARD-LOOKING STATEMENTS AND INFORMATION

This Quarterly Report on Form 10-Q includes statements reflecting assumptions, expectations, projections, intentions or beliefs about future events that are intended as "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. You can identify these statements by the fact that they do not relate strictly to historical or current facts. They use words such as "anticipate," "estimate," "project," "forecast," "may," "will," "should," "expect" and other words of similar meaning. In particular, these include, but are not limited to, statements relating to the following:

- - Projected operating or financial results;
- - Expectations regarding capital expenditures;
- - The effects of competition in our markets;
- - The duration and extent of the current economic downturn;
- - Materially adverse changes in economic conditions in the markets served by us or by our customers, and;
- - Our ability to achieve cost savings.
- - Any or all of Quanta's forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions and or by known or unknown risks and uncertainties, including the following:
  - - Beliefs or assumptions about the outlook for markets we serve;
  - - The Company's ability to effectively compete for market share;
  - - The duration and extent of the current economic downturn;
  - - Beliefs and assumptions about the collectibility of receivables;
  - - Material adverse changes in economic conditions in the markets served by us or by our customers;
  - - Rapid technological and structural changes that could reduce the demand for the services we provide;
  - - Replacement of our contracts as they are completed or expire;
  - - Retention of key personnel and;
  - - The cost of borrowing, availability of credit and other factors affecting Quanta's financing activities.

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk primarily related to potential adverse changes

in interest rates and, to a certain extent, commodity prices, as discussed below. Management does not generally use derivative financial instruments for trading or to speculate on changes in interest rates or commodity prices. As of June 30, 2002, however, we had two derivative contracts outstanding which related to anticipated exposure in the price of natural gas. We are exposed to credit risk in the event of non-performance by the derivative counterparty. However, we monitor our derivative positions by regularly evaluating our positions and the credit worthiness of the counterparties, which we consider credit worthy at June 30, 2002. Management is actively involved in monitoring exposure to market

19

risk and continues to develop and utilize appropriate risk management techniques. We are not exposed to any other significant market risks, foreign currency exchange risk or interest rate risk from the use of derivative financial instruments.

The sensitivity analyses below, which illustrates our hypothetical potential market risk exposure, estimates the effects of hypothetical sudden and sustained changes in the applicable market conditions on 2002 earnings. The sensitivity analyses presented do not consider any additional actions we may take to mitigate our exposure to such changes. The hypothetical changes and assumptions may be different from what actually occurs in the future.

**Interest Rates.** As of June 30, 2002, we had no derivative financial instruments to manage interest rate risk. As such, we are exposed to earnings and fair value risk due to changes in interest rates with respect to our long-term obligations. As of June 30, 2002, approximately 23.7% of our long-term obligations were floating rate obligations. As of June 30, 2002, the fair value of our variable rate debt of \$123.0 million approximated book value, and the fair value of our fixed-rate debt of \$395.8 million was approximately \$334.4 million based upon discounted future cash flows using incremental borrowing rates and current market prices. The detrimental effect on our pretax earnings of a hypothetical 50 basis point increase in both variable and fixed interest rates would be approximately \$0.6 million and \$2.0 million, respectively.

**Commodity Price Exposure.** In October 2001, we entered into a forward purchase contract (Contract A) with settlements through 2006, in order to secure pricing on anticipated gas requirements related to a project in process at December 31, 2001 that was substantially complete at March 31, 2002. Our objective was to mitigate the variability in the price of natural gas by securing the price we will have to pay the Contract A counterparty. On March 29, 2002, we entered into a sub-services agreement with one of our customers (the Counterparty Contract) whereby the customer assumed all obligations associated with Contract A. If the customer is unable to fulfill its obligations under the Counterparty Contract, we will be responsible for settling the obligations of Contract A. As of June 30, 2002, the fair value of Contract A and the Counterparty Contract was a receivable of \$1.2 million and a payable of \$1.2 million, respectively.

In April 2002, we entered into another forward purchase contract (Contract B) with settlements through March 2003, in order to secure pricing on anticipated gas requirements related to a project in process at June 30, 2002. Our objective was to mitigate the variability in the price of natural gas by securing the price we will have to pay the Contract B counterparty. As of June 30, 2002, the fair value of Contract B was \$354,000.

## EMPLOYMENT AGREEMENT

This Employment Agreement (the "Agreement"), by and between Quanta Services, Inc., a Delaware corporation, and its affiliates (collectively, "Employer"), and James F. O'Neil III ("Employee"), is hereby entered into as of the 13th day of March 2002 ("Execution Date").

## RECITALS

A. As of the Execution Date, Employer is engaged primarily in the business of specialized construction contracting and/or maintenance services to: electric utilities; telecommunication, cable television and natural gas operators; governmental entities; the transportation industry; and commercial and industrial customers.

B. Employee is employed hereunder by Employer in a position that is critical to the Employer's continued operation.

C. The Employer's Board of Directors (the "Board"), has determined that it is in the best interests of the Employer and its stockholders to assure that the Employer will have the continued dedication of the Employee, notwithstanding the possibility, threat or occurrence of a Change of Control (as defined below) of the Employer. The Board believes it is imperative to diminish the inevitable distraction of the Employee by virtue of the personal uncertainties and risks created by a pending or threatened Change of Control and to encourage the Employee's full attention and dedication to the Employer currently and in the event of any threatened or pending Change of Control, and to provide the Employee with compensation and benefits arrangements upon a Change of Control that ensure that the compensation and benefits expectations of the Employee will be satisfied and that are competitive with those of other corporations. Therefore, in order to accomplish these objectives, the Board has caused the Employer to enter into this Agreement.

## AGREEMENTS

In consideration of the mutual promises, terms, covenants and conditions set forth herein and the performance of each, the parties hereto hereby agree as follows:

## 1. Certain Definitions.

(a) The "Effective Date" shall mean the first date during the Change of Control Period (as defined in Section 1(b)) on which a Change of Control (as defined in Section 2) occurs. Anything in this Agreement to the contrary notwithstanding, if a Change of Control occurs and if the Employee's employment with the Employer is terminated prior to the date on which the Change of Control occurs, and if the Employee reasonably demonstrates that such termination of employment (i) was at the request of a third party who has taken steps reasonably calculated to effect a Change of Control or (ii) otherwise arose in connection with or anticipation of a Change of Control, then for all purposes of this Agreement the "Effective Date" shall mean the date immediately prior to the date of such termination of employment.

(b) The "Change of Control Period" shall mean the period commencing on the Execution Date hereof and ending on the third anniversary of the Execution Date; provided, however, that commencing on the date one year after the date hereof, and on each annual anniversary of such date (such date and each annual anniversary thereof shall be hereinafter referred to as the "Renewal Date"), unless previously terminated, the Change of Control Period shall be automatically extended so as to terminate three years from such Renewal Date, unless at least 60 days prior to the Renewal Date the Employer shall give notice to the Employee that the Change of Control Period shall not be so extended.

(c) The "Code" shall mean the Internal Revenue Code of 1986, as amended.

(d) The "Earlier Employment Agreement" shall mean any employment, severance or change in control agreement between the Employer and the Employee that existed and was effective as of the Execution Date. The Employee may elect in writing, on or before the Employee's Date of Termination, to have any term, provision and/or definition under the Employees' Earlier Employment Agreement apply in lieu of any similar term, provision and/or definition of this Agreement, except to the extent that such application would produce duplicate payments or benefits under this Agreement and such Earlier Employment Agreement.

2. Change of Control. For the purpose of this Agreement, a "Change of Control" shall mean:

(a) Any person or entity, other than the Employer or an employee benefit plan of the Employer, acquires directly or indirectly the Beneficial Ownership (as defined in Section 13(d) of the Exchange Act) of any voting security of the Employer and immediately after such acquisition such person or entity is, directly or indirectly, the Beneficial Owner of voting securities representing 50% or more of the total voting power of all of the then-outstanding voting securities of the Employer; or

(b) Individuals who, as of the date hereof, constitute the Board, and any new director whose election by the Board or nomination for election by the Employer's stockholders was approved by a vote of a majority of the directors then still in office who were directors as of the date hereof or whose election or nomination for election was previously so approved, cease for any reason to constitute at least a majority of the members of the Board; or

(c) The stockholders of the Employer shall approve a merger, consolidation, recapitalization or reorganization of the Employer, a reverse stock split of outstanding voting securities, or consummation of any such transaction if stockholder approval is not obtained, other than any such transaction that would result in at least 50% of the total voting power represented by the voting securities of the surviving entity outstanding immediately after such transaction being Beneficially Owned by at least 50% of the holders of outstanding voting securities of the Employer immediately prior to the transaction, with the voting power of each such continuing holder relative to other such continuing holders not substantially altered in the transaction; or

-2-

(d) The stockholders of the Employer shall approve a plan of complete liquidation of the Employer or an agreement for the sale or disposition by the Employer of all or a substantial portion of the Employer's assets (i.e., 50% or more of the total assets of the Employer).

3. Employment Period. The Employer hereby agrees to continue the Employee in its employ, and the Employee hereby agrees to remain in the employ of the Employer subject to the terms and conditions of this Agreement, for the period commencing on the Effective Date and ending on the third anniversary of such date (the "Employment Period").

4. Terms of Employment.

(a) Position and Duties.

(i) During the Employment Period, (A) the Employee's position (including status, offices, titles and reporting requirements), authority, duties and responsibilities shall be at least commensurate in all material respects with the most significant of those held, exercised and assigned at any time during the 120-day period immediately preceding the Effective Date and (B) the Employee's services shall be performed at the location where the Employee was employed immediately preceding the Effective Date or any office or location less than 35 miles from such location.

(ii) During the Employment Period, and excluding any periods of vacation and sick leave to which the Employee is entitled, the Employee agrees to devote reasonable attention and time during normal business hours to the business and affairs of the Employer and, to the extent necessary to discharge the responsibilities assigned to the Employee hereunder, to use the Employee's reasonable best efforts to perform faithfully and efficiently such responsibilities. During the Employment Period it shall not be a violation of this Agreement for the Employee to (A) serve on corporate, civic or charitable boards or committees, (B) deliver lectures, fulfill speaking engagements or teach at educational institutions and (C) manage personal investments, so long as such activities do not significantly interfere with the performance of the Employee's responsibilities as an employee of the Employer in accordance with this Agreement. It is expressly understood and agreed that to the extent that any such activities have been conducted by the Employee prior to the Effective Date, the continued conduct of such activities (or the conduct of activities similar in nature and scope thereto) subsequent to the Effective Date shall not thereafter be deemed to interfere with the performance of the Employee's

responsibilities to the Employer.

(b) Compensation.

(i) Base Salary. During the Employment Period, the Employee shall receive an annual base salary ("Annual Base Salary"), which shall be paid at a monthly rate, at least equal to 12 times the highest monthly base salary paid or payable, including any base salary that has been earned but deferred, to the

-3-

Employee by the Employer and its affiliated companies in respect of the 12-month period immediately preceding the month in which the Effective Date occurs. During the Employment Period, the Annual Base Salary shall be reviewed no more than 12 months after the last salary increase awarded to the Employee prior to the Effective Date and thereafter at least annually. Any increase in Annual Base Salary shall not serve to limit or reduce any other obligation to the Employee under this Agreement. Annual Base Salary shall not be reduced after any such increase and the term Annual Base Salary as utilized in this Agreement shall refer to Annual Base Salary as so increased. As used in this Agreement, the term "affiliated companies" shall include any company controlled by, controlling or under common control with the Employer.

(ii) Annual Bonus. In addition to Annual Base Salary, the Employee shall be awarded, for each fiscal year ending during the Employment Period, an annual bonus (the "Annual Bonus") in cash at least equal to the Employee's highest bonus under the Employer's Management Incentive Bonus Plan, or any comparable bonus under any predecessor or successor plan, for the last three full fiscal years prior to the Effective Date (annualized in the event that the Employee was not employed by the Employer for the whole of such fiscal year) (the "Recent Annual Bonus"). Each such Annual Bonus shall be paid no later than the end of the third month of the fiscal year next following the fiscal year for which the Annual Bonus is awarded, unless the Employee shall elect to defer the receipt of such Annual Bonus.

(iii) Incentive, Savings and Retirement Plans. During the Employment Period, the Employee shall be entitled to participate in all incentive, savings and retirement plans, practices, policies and programs applicable generally to other peer executives of the Employer and its affiliated companies, but in no event shall such plans, practices, policies and programs provide the Employee with incentive opportunities (measured with respect to both regular and special incentive opportunities, to the extent, if any, that such distinction is applicable), savings opportunities and retirement benefit opportunities, in each case, less favorable, in the aggregate, than the most favorable of those provided by the Employer and its affiliated companies for the Employee under such plans, practices, policies and programs as in effect at any time during the 120-day period immediately preceding the Effective Date or if more favorable to the Employee, those provided generally at any time after the Effective Date to other peer executives of the Employer and its affiliated companies.

(iv) Welfare Benefit Plans. During the Employment Period, the Employee and/or the Employee's family, as the case may be, shall be eligible for participation in and shall receive all benefits under welfare benefit plans, practices, policies and programs provided by the Employer and its affiliated companies (including, without limitation, medical, prescription, dental, disability, employee life, group life, accidental death and travel accident insurance plans and programs) to the extent applicable generally to other peer executives of the Employer and its affiliated companies, but in no event shall such plans, practices,

-4-

policies and programs provide the Employee with benefits that are less favorable, in the aggregate, than the most favorable of such plans, practices, policies and programs in effect for the Employee at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the

Employee, those provided generally at any time after the Effective Date to other peer executives of the Employer and its affiliated companies.

(v) Expenses. During the Employment Period, the Employee shall be entitled to receive prompt reimbursement for all reasonable expenses incurred by the Employee in accordance with the most favorable policies, practices and procedures of the Employer and its affiliated companies in effect for the Employee at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Employee, as in effect generally at any time thereafter with respect to other peer executives of the Employer and its affiliated companies.

(vi) Fringe Benefits. During the Employment Period, the Employee shall be entitled to fringe benefits, including, without limitation, tax and financial planning services, payment of club dues, and, if applicable, use of an automobile and payment of related expenses, in accordance with the most favorable plans, practices, programs and policies of the Employer and its affiliated companies in effect for the Employee at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Employee, as in effect generally at any time thereafter with respect to other peer executives of the Employer and its affiliated companies.

(vii) Office and Support Staff. During the Employment Period, the Employee shall be entitled to an office or offices of a size and with furnishings and other appointments, and to exclusive personal secretarial and other assistance, at least equal to the most favorable of the foregoing provided to the Employee by the Employer and its affiliated companies at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Employee, as provided generally at any time thereafter with respect to other peer executives of the Employer and its affiliated companies.

(viii) Vacation. During the Employment Period, the Employee shall be entitled to paid vacation in accordance with the most favorable plans, policies, programs and practices of the Employer and its affiliated companies as in effect for the Employee at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Employee, as in effect generally at any time thereafter with respect to other peer executives of the Employer and its affiliated companies.

#### 5. Termination of Employment.

(a) Death or Disability. The Employee's employment shall terminate automatically upon the Employee's death during the Employment Period. If the

-5-

Employer determines in good faith that the Disability of the Employee has occurred during the Employment Period (pursuant to the definition of Disability set forth below), it may give to the Employee written notice in accordance with Section 14 of this Agreement of its intention to terminate the Employee's employment. In such event, the Employee's employment with the Employer shall terminate effective on the 30th day after receipt of such notice by the Employee (the "Disability Effective Date"), provided that, within the 30 days after such receipt, the Employee shall not have returned to full-time performance of the Employee's duties. For purposes of this Agreement, "Disability" shall mean the absence of the Employee from the Employee's duties with the Employer on a full-time basis for 180 consecutive business days as a result of incapacity due to mental or physical illness that is determined to be total and permanent by a physician selected by the Employer or its insurers and acceptable to the Employer or the Employee's legal representative.

(b) Cause. The Employer may terminate the Employee's employment during the Employment Period for Cause. For purposes of this Agreement, "Cause" shall mean:

(i) the willful and continued failure of the Employee to perform substantially the Employee's duties with the Employer or one of its affiliates (other than any such failure resulting from incapacity due to physical or mental illness), after a written demand for substantial performance is delivered to the Employee by the Board or

the Chief Executive Officer of the Employer that specifically identifies the manner in which the Board or the Chief Executive Officer believes that the Employee has not substantially performed the Employee's duties, or

(ii) the willful engaging by the Employee in illegal conduct or gross misconduct that is materially and demonstrably injurious to the Employer.

For purposes of this provision, no act or failure to act, on the part of the Employee, shall be considered "willful" unless it is done, or omitted to be done, by the Employee in bad faith or without reasonable belief that the Employee's action or omission was in the best interests of the Employer. Any act, or failure to act, based upon authority given pursuant to a resolution duly adopted by the Board or upon the instructions of the Chief Executive Officer or a senior officer of the Employer or based upon the advice of counsel for the Employer shall be conclusively presumed to be done, or omitted to be done, by the Employee in good faith and in the best interests of the Employer. The cessation of employment of the Employee shall not be deemed to be for Cause unless and until there shall have been delivered to the Employee a copy of a resolution duly adopted by the affirmative vote of not less than three-quarters of the entire membership of the Board at a meeting of the Board called and held for such purpose (after reasonable notice is provided to the Employee and the Employee is given an opportunity, together with counsel, to be heard before the Board), finding that, in the good faith opinion of the Board, the Employee is guilty of the conduct described in subparagraph (i) or (ii) above, and specifying the particulars thereof in detail.

-6-

(c) Good Reason. The Employee's employment may be terminated by the Employer for Good Reason. For purposes of this Agreement, "Good Reason" shall mean:

(i) the assignment to the Employee of any duties inconsistent in any respect with the Employee's position (including status, offices, titles and reporting requirements), authority, duties or responsibilities as contemplated by Section 4(a) of this Agreement, or any other action by the Employer that results in a diminution in such position, authority, duties or responsibilities, excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and that is remedied by the Employer promptly after receipt of notice thereof given by the Employee;

(ii) any failure by the Employer to comply with any of the provisions of Section 4(b) of this Agreement, other than an isolated, insubstantial and inadvertent failure not occurring in bad faith and that is remedied by the Employer promptly after receipt of notice thereof given by the Employee;

(iii) the Employer's requiring the Employee to be based at any office or location other than as provided in Section 4(a) (i) (B) hereof or the Employer's requiring the Employee to travel on Employer business to a substantially greater extent than required immediately prior to the Effective Date;

(iv) any purported termination by the Employer of the Employee's employment otherwise than as expressly permitted by this Agreement;

(v) any failure by the Employer to continue in effect any cash or stock-based incentive or bonus plan, retirement plan, welfare benefit plan or other compensation, retirement or benefit plan, practice, policy, and program, unless the aggregate value (as computed by an independent employee benefits consultant selected by the Employer and acceptable to the Employee or the Employee's legal representative) of all such compensation, retirement or benefit plans, practices, policies and programs provided to the Employee is not materially less than their aggregate value as in effect at any time during the 120-day period immediately preceding the Effective Date or if more favorable to the Employee, those provided generally at any time after the Effective Date to other peer executives of the Employer and its affiliated companies ; or

(vi) any failure by the Employer to comply with and satisfy Section 13(c) of this Agreement.

For purposes of this Section 5(c), any good faith determination of "Good Reason" made by the Employer shall be conclusive.

(d) Notice of Termination. Any termination by the Employer for Cause, or by the Employee for Good Reason, shall be communicated by Notice of Termination to the other party hereto given in accordance with Section 14 of this Agreement. For purposes of this Agreement, a "Notice of Termination" means a written notice that (i) indicates the

-7-

specific termination provision in this Agreement relied upon, (ii) to the extent applicable, sets forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of the Employee's employment under the provision so indicated and (iii) if the Date of Termination (as defined below) is other than the date of receipt of such notice, specifies the termination date (which date shall be not more than thirty days after the giving of such notice). The failure by the Employee or the Employer to set forth in the Notice of Termination any fact or circumstance that contributes to a showing of Good Reason or Cause shall not waive any right of the Employee or the Employer, respectively, hereunder or preclude the Employee or the Employer, respectively, from asserting such fact or circumstance in enforcing the Employee's or the Employer's rights hereunder.

(e) Date of Termination. "Date of Termination" means (i) if the Employee's employment is terminated by the Employer for Cause, or by the Employee for Good Reason, the date of receipt of the Notice of Termination or any later date specified therein, as the case may be, (ii) if the Employee's employment is terminated by the Employer other than for Cause or Disability, the Date of Termination shall be the date on which the Employer notifies the Employee of such termination and (iii) if the Employee's employment is terminated by reason of death or Disability, the Date of Termination shall be the date of death of the Employee or the Disability Effective Date, as the case may be.

#### 6. Obligations of the Employer upon Termination.

(a) Good Reason; Death; Disability; and Other Than for Cause. If, during the Employment Period, the Employer shall terminate the Employee's employment other than for Cause, the Employee shall terminate employment for Good Reason, or the Employee's employment shall terminate due to death or Disability:

(i) the Employer shall pay to the Employee in a lump sum in cash within 30 days after the Date of Termination the aggregate of the following amounts:

(A) the sum of (1) the Employee's Annual Base Salary through the Date of Termination to the extent not theretofore paid, (2) the product of (x) the higher of (I) the Recent Annual Bonus and (II) the Annual Bonus paid or payable, including any bonus or portion thereof which has been earned but deferred (and annualized for any fiscal year consisting of less than 12 full months or during which the Employee was employed for less than 12 full months), for the most recently completed fiscal year during the Employment Period, if any (such higher amount being referred to as the "Highest Annual Bonus") and (y) a fraction, the numerator of which is the number of days in the current fiscal year through the Date of Termination, and the denominator of which is 365 and (3) any compensation previously deferred by the Employee (together with any accrued interest or earnings thereon) and any accrued vacation pay, in each case to the extent not theretofore paid (the sum of the amounts

-8-

described in clauses (1), (2), and (3) shall be hereinafter referred to as the "Accrued Obligations"); and

(B) the amount equal to the product of (1) two and (2) the sum of (x) the Employee's Annual Base Salary and (y) the Highest Annual Bonus;

(ii) all stock options, restricted stock or other awards made or granted under the Quanta Services, Inc. 1997

Stock Option Plan, the Quanta Services, Inc. 2001 Stock Incentive Plan and/or any similar or successor stock plan or program, will become fully vested immediately on or prior to the Employee's Date of Termination. The Employer agrees that for purposes of determining the continued exercisability of Employee's stock options outstanding on the Date of Termination, Employee shall be considered to have remained employed by the Employer until the second anniversary of the Date of Termination. Nothing in this subparagraph (ii) shall be deemed to extend the expiration date of any stock option granted under the applicable stock plan(s) or program(s) past the original expiration date of such stock option as determined at the time of grant;

(iii) for two years after the Employee's Date of Termination, or such longer period as may be provided by the terms of the appropriate plan, program, practice or policy, the Employer shall continue benefits to the Employee and/or the Employee's family at least equal to those that would have been provided to them in accordance with the plans, programs, practices and policies described in Section 4(b)(iv) of this Agreement if the Employee's employment had not been terminated or, if more favorable to the Employee, as in effect generally at any time thereafter with respect to other peer executives of the Employer and its affiliated companies and their families, provided, however, that if the Employee becomes reemployed with another employer and is eligible to receive medical or other welfare benefits under another employer provided plan, the medical and other welfare benefits described herein shall be secondary to those provided under such other plan during such applicable period of eligibility. For purposes of determining eligibility (but not the time of commencement of benefits) of the Employee for retiree benefits pursuant to such plans, practices, programs and policies, the Employee shall be considered to have remained employed until the second anniversary of the Date of Termination and to have retired on the last day of such period;

(iv) the Employer shall, at its sole expense as incurred, provide the Employee with outplacement services the scope and provider of which shall be selected by the Employee in his sole discretion;

(v) to the extent not theretofore paid or provided, the Employer shall timely pay or provide to the Employee any other amounts or benefits required to be paid or provided or which the Employee is eligible to receive under any plan, program, policy or practice or contract or agreement of the Employer and its

-9-

affiliated companies (such other amounts and benefits shall be hereinafter referred to as the "Other Benefits"); and

(vi) the covenant of non-competition, and any other restrictive covenants applicable to the Employee under any employment or other agreement between the Employer and the Employee shall cease to apply effective as of the Date of Termination.

(b) Death. If the Employee's employment is terminated by reason of the Employee's death during the Employment Period, the Employer shall pay the amounts and provide the benefits described in Section 6(a), pay the Accrued Obligations to the Employee's estate or beneficiary, as applicable, in a lump sum in cash within 30 days of the Date of Termination, and timely pay or provide the Other Benefits. With respect to the provision of Other Benefits, the term Other Benefits as utilized in this Section 6(b) shall include, without limitation, and the Employee's estate and/or beneficiaries shall be entitled to receive, benefits at least equal to the most favorable benefits provided by the Employer and affiliated companies to the estates and beneficiaries of peer executives of the Employer and such affiliated companies under such plans, programs, practices and policies relating to death benefits, if any, as in effect with respect to other peer executives and their beneficiaries at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Employee's estate and/or the Employee's beneficiaries, as in effect on the date of the Employee's death with respect to other peer executives of the Employer and its affiliated companies and their beneficiaries.

(c) Disability. If the Employee's employment is terminated by

reason of the Employee's Disability during the Employment Period, the Employer shall pay the amounts and provide the benefits described in Section 6(a), pay the Accrued Obligations to the Employee's estate or beneficiary, as applicable, in a lump sum in cash within 30 days of the Date of Termination, and timely pay or provide the Other Benefits. With respect to the provision of Other Benefits, the term Other Benefits as utilized in this Section 6(c) shall include, and the Employee shall be entitled after the Disability Effective Date to receive, disability and other benefits at least equal to the most favorable of those generally provided by the Employer and its affiliated companies to disabled executives and/or their families in accordance with such plans, programs, practices and policies relating to disability, if any, as in effect generally with respect to other peer executives and their families at any time during the 120-day period immediately preceding the Effective Date or, if more favorable to the Employee and/or the Employee's family, as in effect at any time thereafter generally with respect to other peer executives of the Employer and its affiliated companies and their families.

(d) Cause; Other than for Good Reason. If the Employee's employment shall be terminated for Cause during the Employment Period, this Agreement shall terminate without further obligations to the Employee other than the obligation to pay to the Employee (x) his Annual Base Salary through the Date of Termination, (y) the amount of any compensation previously deferred by the Employee, and (z) Other Benefits, in each case to the extent theretofore unpaid. If the Employee voluntarily terminates employment during the Employment Period, excluding a termination for Good Reason,

-10-

this Agreement shall terminate without further obligations to the Employee, other than for Accrued Obligations and the timely payment or provision of Other Benefits. In such case, all Accrued Obligations shall be paid to the Employee in a lump sum in cash within 30 days of the Date of Termination.

7. Non-exclusivity of Rights. Nothing in this Agreement shall prevent or limit the Employee's continuing or future participation in any plan, program, policy or practice provided by the Employer or any of its affiliated companies and for which the Employee may qualify, nor, subject to Section 12, shall anything herein limit or otherwise affect such rights as the Employee may have under any contract or agreement with the Employer or any of its affiliated companies. Amounts that are vested benefits or that the Employee is otherwise entitled to receive under any plan, policy, practice or program of or any contract or agreement with the Employer or any of its affiliated companies at or subsequent to the Date of Termination shall be payable in accordance with such plan, policy, practice or program or contract or agreement except as explicitly modified by this Agreement.

8. Full Settlement. The Employer's obligation to make the payments provided for in this Agreement and otherwise to perform its obligations hereunder shall not be affected by any set-off, counterclaim, recoupment, defense or other claim, right or action that the Employer may have against the Employee or others. In no event shall the Employee be obligated to seek other employment or take any other action by way of mitigation of the amounts payable to the Employee under any of the provisions of this Agreement and such amounts shall not be reduced whether or not the Employee obtains other employment. The Employer agrees to pay as incurred, to the full extent permitted by law, all legal fees and expenses that the Employee may reasonably incur as a result of any contest (regardless of the outcome thereof) by the Employer, the Employee or others of the validity or enforceability of, or liability under, any provision of this Agreement or any guarantee of performance thereof (including as a result of any contest by the Employee about the amount of any payment pursuant to this Agreement), plus in each case interest on any delayed payment at the applicable Federal rate provided for in Code Section 7872(f) (2) (A).

9. Certain Additional Payments by the Employer.

(a) Anything in this Agreement to the contrary notwithstanding, in the event it shall be determined that any payment or distribution by the Employer or its affiliates to or for the benefit of the Employee (whether paid or payable or distributed or distributable pursuant to the terms of this Agreement or otherwise, but determined without regard to any additional payments required under this Section 9) (a "Payment") would be subject to the excise tax imposed by Code Section 4999 or any interest or penalties are incurred by the Employee with respect to such excise tax (such excise tax, together with any such interest and penalties, are hereinafter collectively referred to as the "Excise Tax"), then the Employee shall be entitled to receive an additional payment (a "Gross-Up Payment") in an amount such that after payment by the Employee of all taxes (including any interest or penalties imposed with respect to such

taxes), including, without limitation, any income taxes (and any interest and penalties imposed with respect thereto) and Excise Tax imposed upon the Gross-Up Payment, the Employee retains an amount of the Gross-Up Payment equal to the Excise Tax imposed upon the Payments.

-11-

(b) Subject to the provisions of Section 9(c), all determinations required to be made under this Section 9, including whether and when a Gross-Up Payment is required and the amount of such Gross-Up Payment and the assumptions to be utilized in arriving at such determination, shall be made by Arthur Andersen or such other certified public accounting firm as may be designated by the Employee (the "Accounting Firm") which shall provide detailed supporting calculations both to the Employer and the Employee within 15 business days of the receipt of notice from the Employee that there has been a Payment, or such earlier time as is requested by the Employer. In the event that the Accounting Firm is serving as accountant or auditor for the individual, entity or group effecting the Change of Control, the Employer shall appoint another nationally recognized accounting firm to make the determinations required hereunder (which accounting firm shall then be referred to as the Accounting Firm hereunder). All fees and expenses of the Accounting Firm shall be borne solely by the Employer. Any Gross-Up Payment, as determined pursuant to this Section 9, shall be paid by the Employer to the Employee within five days of the receipt of the Accounting Firm's determination. Any determination by the Accounting Firm shall be binding upon the Employer and the Employee. As a result of the uncertainty in the application of Code Section 4999 at the time of the initial determination by the Accounting Firm hereunder, it is possible that Gross-Up Payments that will not have been made by the Employer should have been made ("Underpayment"), consistent with the calculations required to be made hereunder. In the event that the Employer exhausts its remedies pursuant to Section 9(c) and the Employee thereafter is required to make a payment of any Excise Tax, the Accounting Firm shall determine the amount of the Underpayment that has occurred and any such Underpayment shall be promptly paid by the Employer to or for the benefit of the Employee.

(c) The Employee shall notify the Employer in writing of any claim by the Internal Revenue Service that, if successful, would require the payment by the Employer of the Gross-Up Payment. Such notification shall be given as soon as practicable but no later than ten business days after the Employee is informed in writing of such claim and shall apprise the Employer of the nature of such claim and the date on which such claim is requested to be paid. The Employee shall not pay such claim prior to the expiration of the 30-day period following the date on which it gives such notice to the Employer (or such shorter period ending on the date that any payment of taxes with respect to such claim is due). If the Employer notifies the Employee in writing prior to the expiration of such period that it desires to contest such claim, the Employee shall:

(i) give the Employer any information reasonably requested by the Employer relating to such claim,

(ii) take such action in connection with contesting such claim as the Employer shall reasonably request in writing from time to time, including, without limitation, accepting legal representation with respect to such claim by an attorney reasonably selected by the Employer,

(iii) cooperate with the Employer in good faith in order effectively to contest such claim, and

-12-

(iv) permit the Employer to participate in any proceedings relating to such claim;

provided, however, that the Employer shall bear and pay directly all costs and expenses (including additional interest and penalties) incurred in connection with such contest and shall indemnify and hold the Employee harmless, on an after-tax basis, for any Excise Tax or income tax (including interest and penalties with respect thereto) imposed as a result of such representation and payment of costs and expenses. Without limitation on the foregoing provisions of this Section 9(c), the Employer shall control all proceedings taken in connection with such contest and, at its sole option, may pursue or forgo any and all administrative appeals, proceedings, hearings and conferences with the taxing authority in respect of such claim and may, at its sole option, either direct the Employee to pay the tax claimed and sue for a refund or contest the claim in any permissible manner,

and the Employee agrees to prosecute such contest to a determination before any administrative tribunal, in a court of initial jurisdiction and in one or more appellate courts, as the Employer shall determine; provided, however, that if the Employer directs the Employee to pay such claim and sue for a refund, the Employer shall advance the amount of such payment to the Employee, on an interest-free basis and shall indemnify and hold the Employee harmless, on an after-tax basis, from any Excise Tax or income tax (including interest or penalties with respect thereto) imposed with respect to such advance or with respect to any imputed income with respect to such advance; and further provided that any extension of the statute of limitations relating to payment of taxes for the taxable year of the Employee with respect to which such contested amount is claimed to be due is limited solely to such contested amount. Furthermore, the Employer's control of the contest shall be limited to issues with respect to which a Gross-Up Payment would be payable hereunder and the Employee shall be entitled to settle or contest, as the case may be, any other issue raised by the Internal Revenue Service or any other taxing authority.

(d) If, after the receipt by the Employee of an amount advanced by the Employer pursuant to Section 9(c), the Employee becomes entitled to receive any refund with respect to such claim, the Employee shall (subject to the Employer's complying with the requirements of Section 9(c)) promptly pay to the Employer the amount of such refund (together with any interest paid or credited thereon after taxes applicable thereto). If, after the receipt by the Employee of an amount advanced by the Employer pursuant to Section 9(c), a determination is made that the Employee shall not be entitled to any refund with respect to such claim and the Employer does not notify the Employee in writing of its intent to contest such denial of refund prior to the expiration of 30 days after such determination, then such advance shall be forgiven and shall not be required to be repaid and the amount of such advance shall offset, to the extent thereof, the amount of Gross-Up Payment required to be paid.

10. Confidential Information. The Employee shall hold in a fiduciary capacity for the benefit of the Employer all secret or confidential information, knowledge or data relating to the Employer or any of its affiliated companies, and their respective businesses, which shall have been obtained by the Employee during the Employee's employment by the Employer or any of its affiliated companies and which shall not be or become public knowledge (other than by acts

-13-

by the Employee or representatives of the Employee in violation of this Agreement). After termination of the Employee's employment with the Employer, the Employee shall not, without the prior written consent of the Employer or as may otherwise be required by law or legal process, communicate or divulge any such information, knowledge or data to anyone other than the Employer and those designated by it. In no event shall an asserted violation of the provisions of this Section 10 constitute a basis for deferring or withholding any amounts otherwise payable to the Employee under this Agreement.

11. Insurance and Indemnification. For the period from the Effective Date through at least the tenth anniversary of the Employee's termination of employment from the Employer, the Employer shall maintain the Employee as an insured party on all directors' and officers' insurance maintained by the Employer for the benefit of its directors and officers on at least the same basis as all other covered individuals and provide the Employee with at least the same corporate indemnification as it provides to the peer executives of the Employer.

12. Earlier Employment Agreement. Except as provided in the following sentence, from and after the Effective Date, this Agreement shall supersede any other agreement between the parties with respect to the subject matter hereof. The Employee may elect in writing to have any term, provision and/or definition under the Employees' Earlier Employment Agreement apply in lieu of any similar term, provision and/or definition of this Agreement, except to the extent that such application would produce duplicate payments or benefits under this Agreement and such Earlier Employment Agreement. All determinations required to be made under this Section, including whether and when a term, provision and/or definition under the Employees' Earlier Employment Agreement would produce duplicate payments or benefits under this Agreement and such Earlier Employment Agreement and the assumptions to be utilized in arriving at such determination, shall be made by the Accounting Firm or such other nationally recognized compensation and benefits consulting firm as the Employee may designate, which shall provide detailed supporting calculations both to the Employer and the Employee within 15 business days of the receipt of written notice from the Employee, or such earlier time as is requested by the Employer. All fees and expenses of the Accounting Firm (or such other firm designated) shall be borne solely by the Employer.

13. Successors.

(a) This Agreement is personal to the Employee and without the prior written consent of the Employer shall not be assignable by the Employee otherwise than by will or the laws of descent and distribution. This Agreement shall inure to the benefit of and be enforceable by the Employee's legal representatives.

(b) This Agreement shall inure to the benefit of and be binding upon the Employer and its successors and assigns.

(c) The Employer will require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business and/or assets of the Employer to assume expressly and agree to perform this Agreement in the same manner and to the same extent that the Employer would be required to perform it if no such succession had taken place. As used in this Agreement, "Employer"

-14-

shall mean the Employer as hereinbefore defined and any successor to its business and/or assets as aforesaid which assumes and agrees to perform this Agreement by operation of law, or otherwise.

14. Notice. Any notice required pursuant to this Agreement will be in writing and will be deemed given upon the earlier of (i) delivery thereof, if by hand, (ii) three business days after mailing if sent by mail (registered or certified mail, postage prepaid, return receipt requested), (iii) the next business day after deposit if sent by a recognized overnight delivery service, or (iv) upon transmission if sent by facsimile transmission or by electronic mail, with return notification (provided that any notice sent by facsimile or electronic mail shall also promptly be sent by one of the means described in clauses (i) through (iii) of this Section. Any notice or document required to be given or filed with the Employer is properly given or filed if delivered to the Employer at 1360 Post Oak Boulevard, Suite 2100, Houston, Texas 77056, Attention: General Counsel. Any notice or document required to be given or filed with a Employee is properly given or filed if delivered to the Employee at the most recent address shown on the Employer's records. A party may change its address for notice by the giving of notice thereof in the manner hereinabove provided.

15. Severability, Headings. If any portion of this Agreement is held invalid or inoperative, the other portions of this Agreement shall be deemed valid and operative and, so far as is reasonable and possible, effect shall be given to the intent manifested by the portion held invalid or inoperative. The section headings herein are for reference purposes only and are not intended in any way to describe, interpret, define or limit the extent or intent of the Agreement or of any part hereof.

16. Arbitration. Any further dispute or controversy arising under or in connection with this Agreement shall be settled exclusively by arbitration in Houston, Texas, in accordance with the rules of the American Arbitration Association for the Resolution of Employment Disputes in effect on the date of the event giving rise to the claim or the controversy; provided, however, that the evidentiary standards set forth in this Agreement shall apply. Judgment may be entered on the arbitrator's award in any court having jurisdiction. Notwithstanding any provision of this Agreement to the contrary, the Employee shall be entitled to seek specific performance of the Employee's right to be paid until the Employee's Date of Termination during the pendency of any dispute or controversy arising under or in connection with this Agreement. A decision by a majority of the arbitration panel shall be final and binding. The direct expense of any arbitration proceeding shall be borne by Employer.

17. Governing Law. This Agreement shall in all respects be construed according to the laws of the State of Texas, without reference to principles of conflict of laws. The captions of this Agreement are not part of the provisions hereof and shall have no force or effect. This Agreement may not be amended or modified otherwise than by a written agreement executed by the parties hereto or their respective successors and legal representatives.

18. Withholding. The Employer may withhold from any amounts payable under this Agreement such Federal, state, local or foreign taxes as shall be required to be withheld pursuant to any applicable law or regulation.

-15-

19. No Waiver. The Employee's or the Employer's failure to insist upon strict compliance with any provision of this Agreement or the failure to assert any right the Employee or the Employer may have hereunder, including, without limitation, the right of the Employee to terminate employment for Good Reason, shall not be deemed to be a waiver of such provision or right or any other provision or right of this Agreement.

20. Claims. All claims by the Employee for payments or benefits under this Agreement shall be directed to and determined by the Employer's Board of Directors (or such committee to which the Board delegates authority under this Section) and shall be in writing. Any denial by the Board (or such committee) of a claim for benefits under this Agreement shall be delivered to the Employee in writing and shall set forth the specific reasons for the denial and the specific provisions of this Agreement relied upon. The Board (or committee) shall afford the Employee a reasonable opportunity for a review of the decision denying a claim and shall further allow the Employee to appeal the decision within 60 days after the Board (or committee) gives notice that it has denied Employee's claim.

21. Counterparts. This Agreement may be executed simultaneously in two or more counterparts, each of which shall be deemed an original and all of which together shall constitute but one and the same instrument.

IN WITNESS WHEREOF, the Employee has hereunto set the Employee's hand and, pursuant to the authorization from its Board of Directors, the Employer has caused these presents to be executed in its name on its behalf, all as of the day and year first above written.

All of the Series B Notes are currently outstanding.

3. The Company has requested of the Noteholders that the Existing Note Purchase Agreement and the Notes be amended to the effect and as set forth in this Amendment.

NOW, THEREFORE, in order to induce the Noteholders to amend the Existing Note Purchase Agreement and the Notes and for other good and valuable consideration (the receipt and sufficiency of which are hereby acknowledged), the Company agrees with the Noteholders as follows:

SECTION 1. DEFINED TERMS.

All capitalized terms used, but not specifically defined, in this Amendment have the respective meanings assigned to them in the Existing Note Purchase Agreement.

The Company is a corporation duly organized, validly existing and in good standing under the laws of its jurisdiction of incorporation, and is duly qualified as a foreign corporation and is in good standing in each jurisdiction in which such qualification is required by law, other than those jurisdictions as to which the failure to be so qualified or in good standing could not, individually or in the aggregate, reasonably be expected to have a Material Adverse Effect. The Company has the corporate power and authority to transact the business it transacts and proposes to transact, to execute and deliver this Amendment and to perform the provisions hereof.

2.2 NO MATERIAL ADVERSE CHANGE. Since December 31, 2001, except as disclosed in writing to the Noteholders, there has been no change in the business, operations, affairs, financial condition, assets or properties of the Company except for

2

provisions of, any order, judgment, decree, or ruling of any court, arbitrator or Governmental Authority applicable to the Company; and

from time to time in New York, New York as its "base" or "prime" rate, but in any event not in excess of the highest rate allowed by applicable law. If at June 30, 2004 or any time thereafter the consolidated debt ratio measured by Section 10.2 of the Note Purchase Agreement referred to below has been 2.5 to 1.0 or less for four consecutive fiscal quarters, interest on this Note shall become payable semiannually on the first (1st) day of January and July of each year.

Payments of principal of interest on and any Make-Whole Amount with respect to this Note are to be made in lawful money of the United States of America at the principal office of Bank of America, N.A. in New York, New York or at such other place as the Company shall have designated by written notice to the holder of this Note as provided in the Note Purchase Agreement referred to below.

This Note is one of a series of Senior Secured Notes (herein called the "Notes") issued pursuant to the Note Purchase Agreement, dated as of March 1, 2000 (as from time to time amended, supplemented or modified, the "Note Purchase Agreement"), between the Company and the respective Purchasers named therein and is entitled to the benefits thereof.
